Example: Export might only be approved where the Authority is satisfied the grape product meets requirements of the importing country.

Notice of decision

- (7) The Authority must notify the licensee in writing of its decision. If the Authority refuses to approve the grape product, or imposes conditions on the approval of the grape product, the notice must state the reasons for the decision.

Variation of conditions

15 Approval holder may authorise another licensee to export grape product

- (1) An approval holder for a grape product may authorise another licensee, by notice in writing given to the Authority, to export the grape product.
- (2) While the authorisation is in force, the approval of the grape product also approves export by the authorised licensee.

 - (b) a request for records demonstrating that the grape product is sound and merchantable;
 - (c) a request for a sample of the grape product for the purpose of determining whether it is sound and merchantable;
 - (d) if the grape product is wine—a request for a copy of records kept under section 39F of the Act in relation to the wine, for the purpose of verifying a label claim used in the description and presentation of the wine (such label claim to be identified in the request).
- (2) The request may be made to:
- (a) a licensee who has applied for approval of the grape product under section 14; or
 - (b) an approval holder for the grape product.

 - (c) the person to whom the product will be consigned in that country.

19 Authority may request information about compliance with other laws

- (1) If a licensee applies in accordance with section 18 for a certificate for the export of a consignment of a grape product, the Authority may ask the licensee to give the Authority information demonstrating that a requirement under an Australian law that relates to the description and presentation of the grape product has been met.

Example: If a grape product is described as “organic” and is a product to which the *Export Control (Organic Produce Certification) Orders* applies, the Authority may ask the licensee to give the Authority information demonstrating that an organic produce certificate has been issued for the product.

- (2) The request must:
 - (a) be made in writing at least 2 days before the day on which the grape product is to be exported; and
 - (b) identify the requirement and the law under which it applies; and

 - (c) if the Authority makes a request for information under section 19 in relation to a requirement—the description and presentation of the grape product meets the requirement; and
 - (d) if the Authority has given a direction to the licensee under section 22—the export would comply with the direction.
- (3) In deciding whether to issue the export certificate, the Authority may have regard to the person to whom the product will be consigned in the country to which the grape product is to be exported.
- (4) The Authority must refuse to issue the export certificate if:
 - (a) the Authority reasonably believes that the grape product cannot lawfully be sold in the country to which it is to be exported; or
 - (b) the licensee fails to comply with a request under section 19 in relation to the consignment.
- (5) The Authority may specify in the export certificate conditions on the validity of the certificate. If the Authority specifies conditions, the Authority must give the licensee written reasons for doing so.
- (6) If the Authority refuses to issue the export certificate, the Authority must notify the licensee in writing of its decision and state in the notice the reasons for the decision.

91 Consultation by Geographical Indications Committee

In determining a GI or translation of a GI, the Geographical Indications Committee may consult any organisation or person it thinks appropriate.

92 Determining foreign GIs

- (1) In determining a GI, the Geographical Indications Committee must:
- (a) identify in the determination the boundaries of the area or areas in the region or locality to which the determination relates; and
 - (b) determine the indication to be used to indicate that area or those areas; and
 - (c) determine any conditions of use that are to be applicable to the GI.
- (2) The Committee must not:
- (a) determine a GI that is different from the GI proposed in the application under subsection 60(1); or
 - (b) determine boundaries different from those proposed in the application.
- (3) The Committee must have regard to whether the GI is protected by the laws of the country where the area is located.
- (4) The Committee may have regard to any other matter it considers relevant.
- (5) However, the Committee must not consider any submission to the extent that the submission asserts a trade mark right in respect of the proposed GI.

93 Determining translations

- (1) In determining a translation of a GI, the Geographical Indications Committee must:
- (a) identify the GI to which the translation relates; and

- (b) determine the translation to be used; and
 - (c) determine any conditions of use that are to be applicable to the translation.
- (2) The Committee must not determine a different translation to the translation that was proposed in the application under subsection 60(2).
- (3) The Committee:
 - (a) must consider whether the translation conveys or evokes the significance of the GI to which it relates; and
 - (b) may consider any other matter it considers relevant.
- (4) However, the Committee must not consider any submission to the extent that the submission asserts a trade mark right in respect of the proposed translation.

94 Interim determination

- (1) A determination by the Geographical Indications Committee under section 92 or 93 is to be an interim determination in the first instance.
- (2) An interim determination does not have effect.

95 Publication of notice of interim determination

- (1) The Presiding Member of the Geographical Indications Committee must publish a notice, stating that the interim determination has been made and setting out the terms of the determination, in any manner that the Committee thinks appropriate.
- (2) The notice must invite persons to make written submissions to the Committee in relation to the determination within a period of not less than 1 month that is stated in the notice.
- (3) If interim determinations are made of both a GI and a translation of the GI, the Presiding Member may publish a single notice in relation to both determinations.

96 Final determination

After considering any submissions made to it, the Geographical Indications Committee may make a final determination.

97 Publication of notice of final determination

- (1) The Presiding Member of the Geographical Indications Committee must publish a notice, stating that a final determination has been made and setting out the terms of the determination, in any manner that the Committee thinks appropriate.
- (2) The Presiding Member of the Geographical Indications Committee must also give the notice to:
 - (a) the person who applied for the determination under section 60; and
 - (b) any person who made an objection to the proposed item that was considered by the Register of Trade Marks under Division 3.
- (3) The notice must include a statement to the effect that:

Section 98

- (a) subject to the *Administrative Appeals Tribunal Act 1975*, application may be made, by or on behalf of any person whose interests are affected by the determination, to the Administrative Appeals Tribunal for review of the determination; and
 - (b) unless subsection 28(4) of that Act applies, application may be made in accordance with section 28 of that Act by or on behalf of that person for a statement in writing setting out the findings on material questions of fact, referring to the evidence or other material on which those findings were based and giving the reasons for the determination; and
 - (c) if a decision has been made under section 71, 72 or 85 of this instrument before the final determination:
 - (i) no application to the Administrative Appeals Tribunal may be made in respect of that decision; and
 - (ii) an appeal lies to the Federal Court in respect of that decision under section 89 of this instrument.
- (4) If final determinations are made of both a GI and a translation of the GI, the Presiding Member may publish a single notice in relation to both determinations.
- (5) Any failure to comply with subsection (3) in relation to a determination does not affect the validity of the determination.

98 Review of final determination

- (1) Applications may be made to the Administrative Appeals Tribunal for review of final determinations made by the Geographical Indications Committee under section 96.

Note: Under section 89, an appeal lies to the Federal Court from a decision under section 71, 72 or 85.

- (2) Despite paragraph 29(1)(d) and subsection 29(2) of the *Administrative Appeals Tribunal Act 1975*, an application to the Tribunal for review of a final determination must be made within 28 days after notice of the determination is published in accordance with section 97 of this instrument.
- (3) Despite subsection 29(8) of the *Administrative Appeals Tribunal Act 1975*, an application under subsection 29(7) of that Act in respect of a final determination must be made before the time fixed by subsection (2) of this section ends.

99 Date of effect of final determination

- (1) The Presiding Member of the Geographical Indications Committee must give a copy of a final determination made under section 96 to the Registrar so that particulars of the determination can be included in the Register:
- (a) if an application is made to the Administrative Appeals Tribunal under section 98 for review of the determination—as soon as practicable after the decision of the Tribunal on the review is given; or
 - (b) otherwise—as soon as practicable after the 28th day after notice of the determination is published in accordance with section 97.

- (2) When the Presiding Member gives a copy of a final determination to the Registrar, the Presiding Member must also give a copy to the Chair of the Authority.
- (3) A final determination of the Committee takes effect on the day on which particulars of the determination are included in the Register.
- (4) However, a final determination in relation to a translation of a GI does not take effect, and particulars must not be included in the Register, if the GI to which it relates is not included in the Register.

Part 8—Omission from the Register of foreign GIs and translations of foreign GIs

Division 1—Preliminary

100 Simplified outline of this Part

This Part sets out the procedure for omitting geographical indications that relate to foreign countries, and translations of those geographical indications, from the Register of Protected Geographical Indications and Other Terms.

There are 2 grounds on which a person may apply to the Geographical Indications Committee for a decision to omit a GI. The first ground is that the GI is not in use, because wine is not being produced in the area to which the GI relates. The second ground is that the GI is no longer protected in the country of origin. Under both grounds, the Committee must also consider the use of the GI in the sale of wine in Australia.

A person may also apply to the Committee for a separate decision to omit a translation, on the ground that the translation no longer conveys or evokes the significance of the GI for which it was registered.

If it receives an application, the Committee must publish a notice inviting submissions.

Determinations made by the Committee on the ground of non-use (for GIs) or loss of significance (for translations) are reviewable by the Administrative Appeals Tribunal.

101 Purpose of Part

For the purposes of subsection 40ZAT(1) of the Act, this Part provides for the omission from the Register of registered geographical indications, and registered translations of such indications, in relation to a foreign country or a region or locality in a foreign country.

Division 2—Omission for non-use or loss of significance

102 Application for omission of foreign GI or translation of foreign GI

- (1) A person may apply to the Geographical Indications Committee to omit from the Register a GI in relation to a foreign country or a region or locality in a foreign country, on the ground that the GI is not in use.
- (2) If an application is made to omit a GI from the Register, and a translation of that GI is included in the Register, the application is taken to be for omission of both the GI and the translation.
- (3) A person may apply to the Committee to omit a registered translation from the Register on the ground that the translation no longer conveys or evokes the significance of the GI for which it was registered.

103 Further information concerning application

- (1) For the purposes of determining an application made under section 102, the Geographical Indications Committee may, by notice in writing, require the applicant to provide such further information as the Committee directs, within the period specified in the notice.
- (2) If the applicant does not comply with this requirement, the application is taken to have been withdrawn.
- (3) The notice must include a statement about the effect of subsection (2).

104 Notice by Geographical Indications Committee

If the Geographical Indications Committee receives an application under section 102, the Presiding Member of the Committee must publish a notice in the manner that the Committee thinks appropriate:

- (a) setting out the registered GI, registered translation of a GI, or both, that the application under section 102 relates to; and
- (b) stating that an application under section 102 has been made; and
- (c) inviting persons to make written submissions to the Committee in relation to the application within the period of not less than 1 month that is stated in the notice.

105 Determination by Geographical Indications Committee

- (1) After considering any submissions made to it in response to a notice under section 104, the Geographical Indications Committee must determine whether to omit the registered GI, registered translation of a GI, or both, that the application under section 102 relates to.

Omission of GI

- (2) The Committee may, in writing, make a determination to omit a GI if the Committee is satisfied of the following matters:

Section 106

- (a) that the GI has been registered for more than 5 years before the date of the notice under section 104;
 - (b) that the GI has not been used during the 3 years before the date of the notice under section 104;
 - (c) that no special circumstances exist in relation to the country, region or locality indicated by the GI that would preclude the making of a determination to omit the GI from the Register.
- (3) For the purposes of paragraph (2)(b), a GI has not been used if:
- (a) there has not been a production of wine for commercial use originating in the country, region or locality indicated by the GI; and
 - (b) wine originating in the country, region or locality indicated by the GI has not been described and presented for sale in Australia using the GI or a registered translation of the GI; and
 - (c) wine originating in the country, region or locality indicated by the GI has not been described and presented for sale in the country of origin using the GI or a registered translation of the GI.
- (4) For the purposes of paragraph (2)(c), special circumstances exist if:
- (a) the country, region or locality indicated by the GI has been affected by fire, drought or some other disaster; and
 - (b) as a result of being so affected, there has not been a production of wine for commercial use originating in the country, region or locality indicated by the GI during the 3 years immediately before the date of the notice under section 104.

Omission of translation of GI

- (5) The Committee may, in writing, make a determination to omit a translation of a GI if the Committee is satisfied that the translation no longer conveys or evokes the significance of the GI for which it was registered.
- (6) If the application under section 102 is for omission of both a GI and its translation, the Committee may make a determination to omit the translation without omitting the GI if the Committee is satisfied of the matter in subsection (5) in relation to the translation.
- (7) The Committee must make a determination to omit a translation of a GI if it makes a determination to omit the GI.

106 Notice of determination

- (1) The Presiding Member of the Geographical Indications Committee must:
 - (a) give a notice of the Committee's determination to the applicant; and
 - (b) if the determination made is to omit a GI, a translation of a GI or both a GI and its translation from the Register—publish a notice setting out the terms of the determination.
- (2) The notice under paragraph (1)(b) is to be published in the manner that the Committee thinks appropriate.

107 AAT review of determinations

- (1) Applications may be made to the Administrative Appeals Tribunal for review of determinations made by the Geographical Indications Committee under section 105.
- (2) Despite paragraph 29(1)(d) and subsection 29(2) of the *Administrative Appeals Tribunal Act 1975*, an application to the Tribunal for review of a determination under section 105 of this instrument must be made within 28 days after notice of the determination is published in accordance with section 106 of this instrument.
- (3) Despite subsection 29(8) of the *Administrative Appeals Tribunal Act 1975*, an application under subsection 29(7) of that Act in respect of a determination under section 105 of this instrument must be made before the time fixed by subsection (2) of this section ends.

108 Date of effect of determination to omit item

- (1) If a determination made by the Geographical Indications Committee under section 105 is a determination to omit a GI, a translation of a GI or both a GI and its translation from the Register, the Presiding Member of the Committee must give a copy of the determination to the Registrar so that particulars of the determination can be omitted from the Register:
 - (a) if an application is made to the Administrative Appeals Tribunal under section 107 for review of the determination—as soon as practicable after the decision of the Tribunal on the review is given; or
 - (b) otherwise—as soon as practicable after the 28th day after notice of the determination is published in accordance with section 106.
- (2) When the Presiding Member gives a copy of the determination to the Registrar, the Presiding Member must also give a copy to the Chair of the Authority.
- (3) The determination of the Committee takes effect on the day on which particulars of the item or items are omitted from the Register.

- (1) For the purposes of determining an application made under section 109, the Geographical Indications Committee may, by notice in writing, require the applicant to provide such further information as the Committee directs, within the period specified in the notice.
- (2) If the applicant does not comply with this requirement, the application is taken to have been withdrawn.
- (3) The notice must include a statement about the effect of subsection (2).

111 Notice by Geographical Indications Committee

- (2) When the Presiding Member gives a copy of the determination to the Registrar, the Presiding Member must also give a copy to the Chair of the Authority.
- (3) The determination of the Committee takes effect on the day on which particulars of the GI are omitted from the Register.
