

**DIRECTIVE 2000/13/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL
of 20 March 2000**

**on the approximation of the laws of the Member States relating to the labelling, presentation and
advertising of foodstuffs**

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 95 thereof,

Having regard to the proposal of the Commission,

Having regard to the opinion of the Economic and Social Committee ⁽¹⁾,

Acting in accordance with the procedure laid down in Article 251 of the Treaty ⁽²⁾,

Whereas:

- (1) Council Directive 79/112/EEC of 18 December 1978 on the approximation of the laws of the Member States relating to the labelling, presentation and advertising of foodstuffs ⁽³⁾ has been frequently and substantially amended ⁽⁴⁾. Therefore, for reasons of clarity and rationality, the said Directive should be consolidated in a single text.
- (2) Differences between the laws, regulations and administrative provisions of the Member States on the labelling of foodstuffs may impede the free circulation of these products and can lead to unequal conditions of competition.
- (3) Therefore, approximation of these laws would contribute to the smooth functioning of the internal market.
- (4) The purpose of this Directive should be to enact Community rules of a general nature applicable horizontally to all foodstuffs put on the market.
- (5) Rules of a specific nature which apply vertically only to particular foodstuffs should be laid down in provisions dealing with those products.
- (6) The prime consideration for any rules on the labelling of foodstuffs should be the need to inform and protect the consumer.
- (7) That need means that Member States may, in compliance with the rules of the Treaty, impose language requirements.
- (8) Detailed labelling, in particular giving the exact nature and characteristics of the product which enables the consumer to make his choice in full knowledge of the facts, is the most appropriate since it creates fewest obstacles to free trade.
- (9) Therefore, a list should be drawn up of all information which should in principle be included in the labelling of all foodstuffs.
- (10) However, the horizontal nature of this Directive does not allow, at the initial stage, the inclusion in the compulsory indications of all the indications which must be added to the list applying in principle to the whole range of foodstuffs. During a later stage, Community provisions should be adopted, aimed at supplementing the existing rules.
- (11) Furthermore, in the absence of Community rules of a specific nature Member States should retain the right to lay down certain national provisions which may be added to the general provisions of this Directive, nevertheless these provisions should be subject to a Community procedure.
- (12) The said Community procedure must be that of a Community decision when a Member State wishes to enact new legislation.
- (13) Provision should also be made for the Community legislator to derogate, in exceptional cases, from certain obligations that have been fixed generally.
- (14) The rules on labelling should also prohibit the use of information that would mislead the purchaser or attribute medicinal properties to foodstuffs. To be effective, this prohibition should also apply to the presentation and advertising of foodstuffs.
- (15) With a view to facilitating trade between Member States, it may be provided that, at stages prior to sale to the ultimate consumer, only information on the essential elements should appear on the outer packaging and certain mandatory particulars that must appear on a prepackaged foodstuff need appear only on commercial documents referring thereto.
- (16) Member States should retain the right, depending on local practical conditions and circumstances, to lay down rules in respect of the labelling of foodstuffs sold in bulk; in such cases, information should nevertheless be provided for the consumer.

⁽²⁾ Opinion of the European Parliament of 18 January 2000 (not yet published in the Official Journal) and Council Decision of 13 March 2000.

⁽³⁾ OJ L 33, 8.2.1979, p. 1. Directive as last amended by Directive 97/4/EC of the European Parliament and of the Council (OJ L 43, 14.2.1997, p. 21).

⁽⁴⁾ See Annex IV, Part B.

- (17) With the aim of simplifying and accelerating the procedure, the Commission should be entrusted with the task of adopting implementing measures of a technical nature.
- (18) The measures necessary for the implementing of this Directive should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission ⁽¹⁾.
- (19) This Directive should be without prejudice to the obligations of the Member States concerning the time limits for transposition of the Directives set out in Annex IV, Part B,

HAVE ADOPTED THIS DIRECTIVE:

Article 1

1. This Directive concerns the labelling of foodstuffs to be delivered as such to the ultimate consumer and certain aspects relating to the presentation and advertising thereof.
2. This Directive shall apply also to foodstuffs intended for supply to restaurants, hospitals, canteens and other similar mass caterers (hereinafter referred to as 'mass caterers').
3. For the purpose of this Directive,
 - (a) 'labelling' shall mean any words, particulars, trade marks, brand name, pictorial matter or symbol relating to a foodstuff and placed on any packaging, document, notice, label, ring or collar accompanying or referring to such foodstuff;
 - (b) 'pre-packaged foodstuff' shall mean any single item for presentation as such to the ultimate consumer and to mass caterers, consisting of a foodstuff and the packaging into which it was put before being offered for sale, whether such packaging encloses the foodstuff completely or only partially, but in any case in such a way that the contents cannot be altered without opening or changing the packaging.

Article 2

1. The labelling and methods used must not:
 - (a) be such as could mislead the purchaser to a material degree, particularly:
 - (i) as to the characteristics of the foodstuff and, in particular, as to its nature, identity, properties, composition, quantity, durability, origin or provenance, method of manufacture or production;
 - (ii) by attributing to the foodstuff effects or properties which it does not possess;
 - (iii) by suggesting that the foodstuff possesses special characteristics when in fact all similar foodstuffs possess such characteristics;

- (b) subject to Community provisions applicable to natural mineral waters and foodstuffs for particular nutritional uses, attribute to any foodstuff the property of preventing, treating or curing a human disease, or refer to such properties.

2. The Council, in accordance with the procedure laid down in Article 95 of the Treaty, shall draw up a non-exhaustive list of the claims within the meaning of paragraph 1, the use of which must at all events be prohibited or restricted.

3. The prohibitions or restrictions referred to in paragraphs 1 and 2 shall also apply to:

- (a) the presentation of foodstuffs, in particular their shape, appearance or packaging, the packaging materials used, the way in which they are arranged and the setting in which they are displayed;
- (b) advertising.

Article 3

1. In accordance with Articles 4 to 17 and subject to the exceptions contained therein, indication of the following particulars alone shall be compulsory on the labelling of foodstuffs:

- (1) the name under which the product is sold;
- (2) the list of ingredients;
- (3) the quantity of certain ingredients or categories of ingredients as provided for in Article 7;
- (4) in the case of prepackaged foodstuffs, the net quantity;
- (5) the date of minimum durability or, in the case of foodstuffs which, from the microbiological point of view, are highly perishable, the 'use by' date;
- (6) any special storage conditions or conditions of use;
- (7) the name or business name and address of the manufacturer or packager, or of a seller established within the Community.

However, the Member States shall be authorised, in respect of butter produced in their territory, to require only an indication of the manufacturer, packager or seller.

Without prejudice to the notification provided for in Article 24, Member States shall inform the Commission and the other Member States of any measure taken pursuant to the second paragraph;

- (8) particulars of the place of origin or provenance where failure to give such particulars might mislead the consumer to a material degree as to the true origin or provenance of the foodstuff;
- (9) instructions for use when it would be impossible to make appropriate use of the foodstuff in the absence of such instructions;
- (10) with respect to beverages containing more than 1,2 % by volume of alcohol, the actual alcoholic strength by volume.

⁽¹⁾ OJ L 184, 17.7.1999, p. 23.

2. Notwithstanding the previous paragraph, Member States may retain national provisions which require indication of the factory or packaging centre, in respect of home production.
3. The provisions of this Article shall be without prejudice to more precise or more extensive provisions regarding weights and measures.

Article 4

1. Community provisions applicable to specified foodstuffs and not to foodstuffs in general may provide for derogations, in exceptional cases, from the requirements laid down in Article 3(1), points 2 and 5, provided that this does not result in the purchaser being inadequately informed.
2. Community provisions applicable to specified foodstuffs and not to foodstuffs in general may provide that other particulars in addition to those listed in Article 3 must appear on the labelling.

Where there are no Community provisions, Member States may make provision for such particulars in accordance with the procedure laid down in Article 19.

3. The Community provisions referred to in paragraphs 1 and 2 shall be adopted in accordance with the procedure laid down in Article 20(2).

Article 5

1. The name under which a foodstuff is sold shall be the name provided for in the Community provisions applicable to it.
- (a) In the absence of Community provisions, the name under which a product is sold shall be the name provided for in the laws, regulations and administrative provisions applicable in the Member State in which the product is sold to the final consumer or to mass caterers.

Failing this, the name under which a product is sold shall be the name customary in the Member State in which it is sold to the final consumer or to mass caterers, or a description of the foodstuff, and if necessary of its use, which is clear enough to let the purchaser know its true nature and distinguish it from other products with which it might be confused.

- (b) The use in the Member State of marketing of the sales name under which the product is legally manufactured and marketed in the Member State of production shall also be allowed.

However, where the application of the other provisions of this Directive, in particular those set out in Article 3, would not enable consumers in the Member State of marketing to know the true nature of the foodstuff and to distinguish it from foodstuffs with which they could confuse it, the sales name shall be accompanied by other descriptive information which shall appear in proximity to the sales name.

- (c) In exceptional cases, the sales name of the Member State of production shall not be used in the Member State of marketing when the foodstuff which it designates is so different, as regards its composition or manufacture, from the foodstuff known under that name that the provisions of point (b) are not sufficient to ensure, in the Member State of marketing, correct information for consumers.

2. No trade mark, brand name or fancy name may be substituted for the name under which the product is sold.

3. The name under which the product is sold shall include or be accompanied by particulars as to the physical condition of the foodstuff or the specific treatment which it has undergone (e.g. powdered, freeze-dried, deep-frozen, concentrated, smoked) in all cases where omission of such information could create confusion in the mind of the purchaser.

Any foodstuff which has been treated with ionising radiation must bear one of the following indications:

- in Spanish:
'irradiado' or 'tratado con radiación ionizante',
- in Danish:
'bestrålet/...' or 'strålekonserveret' or 'behandlet med ioniserende stråling' or 'konserved med ioniserende stråling',
- in German:
'bestrahlt' or 'mit ionisierenden Strahlen behandelt',
- in Greek:
'επεξεργασμένο με ιονίζουσα ακτινοβολία' or 'ακτινοβολημένο',
- in English:
'irradiated' or 'treated with ionising radiation',
- in France:
'traité par rayonnements ionisants' or 'traité par ionisation',
- in Italian:
'irradiato' or 'trattato con radiazioni ionizzanti',
- in Dutch:
'doorstraald' or 'door bestraling behandeld' or 'met ioniserende stralen behandeld',
- in Portuguese:
'irradiado' or 'tratado por irradiação' or 'tratado por radiação ionizante',
- in Finnish:
'säteilytetty' or 'käsitelty ionisoivalla säteilyllä',
- in Swedish:
'bestrålad' or 'behandlad med joniserande strålning'.

Article 6

1. Ingredients shall be listed in accordance with this Article and Annexes I, II and III.
2. Ingredients need not be listed in the case of:
- (a) — fresh fruit and vegetables, including potatoes, which have not been peeled, cut or similarly treated,

- carbonated water, the description of which indicates that it has been carbonated,
 - fermentation vinegars derived exclusively from a single basic product, provided that no other ingredient has been added;
- (b) — cheese,
- butter,
 - fermented milk and cream,

provided that no ingredient has been added other than lactic products, enzymes and micro-organism cultures essential to manufacture, or the salt needed for the manufacture of cheese other than fresh cheese and processed cheese;

- (c) products comprising a single ingredient, where:
- the trade name is identical with the ingredient name, or
 - the trade name enables the nature of the ingredient to be clearly identified.

3. In the case of beverages containing more than 1,2 % by volume of alcohol, the Council, acting on a proposal from the Commission, shall, before 22 December 1982, determine the rules for labelling ingredients.

4. (a) 'Ingredient' shall mean any substance, including additives, used in the manufacture or preparation of a foodstuff and still present in the finished product, even if in altered form.

(b) Where an ingredient of the foodstuff is itself the product of several ingredients, the latter shall be regarded as ingredients of the foodstuff in question.

(c) The following shall not be regarded as ingredients:

(i) the constituents of an ingredient which have been temporarily separated during the manufacturing process and later reintroduced but not in excess of their original proportions;

(ii) additives:

- whose presence in a given foodstuff is solely due to the fact that they were contained in one or more ingredients of that foodstuff, provided that they serve no technological function in the finished product,
- which are used as processing aids;

(iii) substances used in the quantities strictly necessary as solvents or media for additives or flavouring.

(d) In certain cases Decisions may be taken in accordance with the procedure laid down in Article 20(2) as to whether the conditions described in point (c)(ii) and (iii) are satisfied.

5. The list of ingredients shall include all the ingredients of the foodstuff, in descending order of weight, as recorded at the time of their use in the manufacture of the foodstuff. It shall appear preceded by a suitable heading which includes the word 'ingredients'.

However:

- added water and volatile products shall be listed in order of their weight in the finished product; the amount of water added as an ingredient in a foodstuff shall be calculated by deducting from the total amount of the finished product the total amount of the other ingredients used. This amount need not be taken into consideration if it does not exceed 5 % by weight of the finished product,

- ingredients used in concentrated or dehydrated form and reconstituted at the time of manufacture may be listed in order of weight as recorded before their concentration or dehydration,

- in the case of concentrated or dehydrated foods which are intended to be reconstituted by the addition of water, the ingredients may be listed in order of proportion in the reconstituted product provided that the list of ingredients is accompanied by an expression such as 'ingredients of the reconstituted product', or 'ingredients of the ready-to-use product',

- in the case of mixtures of fruit or vegetables where no particular fruit or vegetable significantly predominates in proportion by weight, those ingredients may be listed in another order provided that that list of ingredients is accompanied by an expression such as 'in variable proportion',

- in the case of mixtures of spices or herbs, where none significantly predominates in proportion by weight, those ingredients may be listed in another order provided that that list of ingredients is accompanied by an expression such as 'in variable proportion'.

6. Ingredients shall be designated by their specific name, where applicable, in accordance with the rules laid down in Article 5.

However:

- ingredients which belong to one of the categories listed in Annex I and are constituents of another foodstuff need only be designated by the name of that category.

Alterations to the list of categories in Annex I may be effected in accordance with the procedure laid down in Article 20(2).

However, the designation 'starch' listed in Annex I must always be complemented by the indication of its specific vegetable origin, when that ingredient may contain gluten,

- ingredients belonging to one of the categories listed in Annex II must be designated by the name of that category, followed by their specific name or EC number; if an ingredient belongs to more than one of the categories, the category appropriate to the principal function in the case of the foodstuff in question shall be indicated.

Amendments to this Annex based on advances in scientific and technical knowledge shall be adopted in accordance with the procedure laid down in Article 20(2).

However, the designation 'modified starch' listed in Annex II must always be complemented by the indication of its specific vegetable origin, when that ingredient may contain gluten,

- flavourings shall be designated in accordance with Annex III,
- the specific Community provisions governing the indication of treatment of an ingredient with ionising radiation shall be adopted subsequently in accordance with Article 95 of the Treaty.

7. Community provisions or, where there are none, national provisions may lay down that the name under which a specific foodstuff is sold is to be accompanied by mention of a particular ingredient or ingredients.

The procedure laid down in Article 19 shall apply to any such national provisions.

The Community provisions referred to in this paragraph shall be adopted in accordance with the procedure laid down in Article 20(2).

8. In the case referred to in paragraph 4(b), a compound ingredient may be included in the list of ingredients, under its own designation in so far as this is laid down by law or established by custom, in terms of its overall weight, provided that it is immediately followed by a list of its ingredients.

Such a list, however, shall not be compulsory:

- (a) where the compound ingredient constitutes less than 25 % of the finished product; however, this exemption shall not apply in the case of additives, subject to the provisions of paragraph 4(c);
- (b) where the compound ingredient is a foodstuff for which a list of ingredients is not required under Community rules.

9. Notwithstanding paragraph 5 the water content need not be specified:

- (a) where the water is used during the manufacturing process solely for the reconstitution of an ingredient used in concentrated or dehydrated form;
- (b) in the case of a liquid medium which is not normally consumed.

Article 7

1. The quantity of an ingredient or category of ingredients used in the manufacture or preparation of a foodstuff shall be stated in accordance with this Article.

2. The indication referred to in paragraph 1 shall be compulsory:

- (a) where the ingredient or category of ingredients concerned appears in the name under which the foodstuff is sold or is usually associated with that name by the consumer; or
- (b) where the ingredient or category of ingredients concerned is emphasised on the labelling in words, pictures or graphics; or
- (c) where the ingredient or category of ingredients concerned is essential to characterise a foodstuff and to distinguish it from products with which it might be confused because of its name or appearance; or

(d) in the cases determined in accordance with the procedure laid down in Article 20(2).

3. Paragraph 2 shall not apply:

- (a) to an ingredient or category of ingredients:
 - the drained net weight of which is indicated in accordance with Article 8(4), or
 - the quantities of which are already required to be given on the labelling under Community provisions, or
 - which is used in small quantities for the purposes of flavouring, or
 - which, while appearing in the name under which the food is sold, is not such as to govern the choice of the consumer in the country of marketing because the variation in quantity is not essential to characterise the foodstuff or does not distinguish it from similar foods. In cases of doubt it shall be decided by the procedure laid down in Article 20(2) whether the conditions laid down in this indent are fulfilled;

(b) where specific Community provisions stipulate precisely the quantity of an ingredient or of a category of ingredients without providing for the indication thereof on the labelling;

(c) in the cases referred to in the fourth and fifth indents of Article 6(5);

(d) in the cases determined in accordance with the procedure laid down in Article 20(2).

4. The quantity indicated, expressed as a percentage, shall correspond to the quantity of the ingredient or ingredients at the time of its/their use. However, Community provisions may allow for derogations from this principle for certain foodstuffs. Such provisions shall be adopted in accordance with the procedure laid down in Article 20(2).

5. The indication referred to in paragraph 1 shall appear either in or immediately next to the name under which the foodstuff is sold or in the list of ingredients in connection with the ingredient or category of ingredients in question.

6. This Article shall apply without prejudice to Community rules on nutrition labelling for foodstuffs.

Article 8

1. The net quantity of prepackaged foodstuffs shall be expressed:

- in units of volume in the case of liquids,
- in units of mass in the case of other products,

using the litre, centilitre, millilitre, kilogram or gram, as appropriate.

Community provisions or, where there are none, national provisions applicable to certain specified foodstuffs may derogate from this rule.

The procedure laid down in Article 19 shall apply to any such national provisions.

2. (a) Where the indication of a certain type of quantity (e.g. nominal quantity, minimum quantity, average quantity) is required by Community provisions or, where there are none, by national provisions, this quantity shall be regarded as the net quantity for the purposes of this Directive.

Without prejudice to the notification provided for in Article 24, Member States shall inform the Commission and the other Member States of any measure taken pursuant to this point.

- (b) Community provisions or, where there are none, national provisions may, for certain specified foodstuffs classified by quantity in categories, require other indications of quantity.

The procedure laid down in Article 19 shall apply to any such national provisions.

- (c) Where a prepackaged item consists of two or more individual prepackaged items containing the same quantity of the same product, the net quantity shall be indicated by mentioning the net quantity contained in each individual package and the total number of such packages. Indication of these particulars shall not, however, be compulsory where the total number of individual packages can be clearly seen and easily counted from the outside and where at least one indication of the net quantity contained in each individual package can be clearly seen from the outside.

- (d) Where a prepackaged item consists of two or more individual packages which are not regarded as units of sale, the net quantity shall be given by indicating the total net quantity and the total number of individual packages. Community provisions or, where there are none, national provisions need not, in the case of certain foodstuffs, require indication of the total number of individual packages.

Without prejudice to the notification provided for in Article 24, Member States shall inform the Commission and the other Member States of any measure taken pursuant to this point.

3. In the case of foodstuffs normally sold by number, Member States need not require indication of the net quantity provided that the number of items can clearly be seen and easily counted from the outside or, if not, is indicated on the labelling.

Without prejudice to the notification provided for in Article 24, Member States shall inform the Commission and the other Member States of any measure taken pursuant to this paragraph.

4. Where a solid foodstuff is presented in a liquid medium, the drained net weight of the foodstuff shall also be indicated on the labelling.

For the purposes of this paragraph, 'liquid medium' shall mean the following products, possibly in mixtures and also where frozen or quick-frozen, provided that the liquid is merely an adjunct to the essential elements of that preparation and is thus not a decisive factor for the purchase: water, aqueous solutions of salts, brine, aqueous solutions of food acids, vinegar,

aqueous solutions of sugars, aqueous solutions of other sweetening substances, fruit or vegetable juices in the case of fruit or vegetables.

This list may be supplemented in accordance with the procedure laid down in Article 20(2).

Methods of checking the drained net weight shall be determined in accordance with the procedure laid down in Article 20(2).

5. It shall not be compulsory to indicate the net quantity in the case of foodstuffs:

- (a) which are subject to considerable losses in their volume or mass and which are sold by number or weighed in the presence of the purchaser;
- (b) the net quantity of which is less than 5 g or 5 ml; however, this provision shall not apply to spices and herbs.

Community provisions or, where there are none, national provisions applicable to specified foodstuffs may in exceptional cases lay down thresholds which are higher than 5 g or 5 ml provided that this does not result in the purchaser being inadequately informed.

Without prejudice to the notification provided for in Article 24, Member States shall inform the Commission and the other Member States of any measure taken pursuant to this paragraph.

6. The Community provisions referred to in paragraphs 1, second subparagraph, 2(b) and (d) and 5, second subparagraph, shall be adopted in accordance with the procedure laid down in Article 20(2).

Article 9

1. The date of minimum durability of a foodstuff shall be the date until which the foodstuff retains its specific properties when properly stored.

It shall be indicated in accordance with paragraphs 2 to 5.

2. The date shall be preceded by the words:

- 'Best before ...' when the date includes an indication of the day,
- 'Best before end ...' in other cases.

3. The words referred to in paragraph 2 shall be accompanied by:

- either the date itself, or
- a reference to where the date is given on the labelling.

If need be, these particulars shall be followed by a description of the storage conditions which must be observed if the product is to keep for the specified period.

4. The date shall consist of the day, month and year in uncoded chronological form.

However, in the case of foodstuffs:

- which will not keep for more than three months, an indication of the day and the month will suffice,

- which will keep for more than three months but not more than 18 months, an indication of the month and year will suffice,
- which will keep for more than 18 months, an indication of the year will suffice.

The manner of indicating the date may be specified according to the procedure laid down in Article 20(2).

5. Subject to Community provisions imposing other types of date indication, an indication of the durability date shall not be required for:

- fresh fruit and vegetables, including potatoes, which have not been peeled, cut or similarly treated. This derogation shall not apply to sprouting seeds and similar products such as legume sprouts,
- wines, liqueur wines, sparkling wines, aromatised wines and similar products obtained from fruits other than grapes, and beverages falling within CN codes 2206 00 91, 2206 00 93 and 2206 00 99 and manufactured from grapes or grape musts,
- beverages containing 10 % or more by volume of alcohol,
- soft drinks, fruit juices, fruit nectars and alcoholic beverages in individual containers of more than five litres, intended for supply to mass caterers,
- bakers' or pastry cooks' wares which, given the nature of their content, are normally consumed within 24 hours of their manufacture,
- vinegar,
- cooking salt,
- solid sugar,
- confectionery products consisting almost solely of flavoured and/or coloured sugars,
- chewing gums and similar chewing products,
- individual portions of ice-cream.

Article 10

1. In the case of foodstuffs which, from the microbiological point of view, are highly perishable and are therefore likely after a short period to constitute an immediate danger to human health, the date of minimum durability shall be replaced by the 'use by' date.

2. The date shall be preceded by the words:

- in Spanish: 'fecha de caducidad',
- in Danish: 'sidste anvendelsesdato',
- in German: 'verbrauchen bis',
- in Greek: 'ανάλωση μέχρι',
- in English: 'use by',
- in French: 'à consommer jusqu'au',
- in Italian: 'da consumare entro',
- in Dutch: 'te gebruiken tot',
- in Portuguese: 'a consumir até',

- in Finnish: 'viimeinen käyttöajankohta',
- in Swedish: 'sista förbrukningsdag'.

These words shall be accompanied by:

- either the date itself, or
- a reference to where the date is given on the labelling.

These particulars shall be followed by a description of the storage conditions which must be observed.

3. The date shall consist of the day, the month and, possibly, the year, in that order and in uncoded form.

4. In some cases it may be decided by the procedure laid down in Article 20(2) whether the conditions laid down in paragraph 1 are fulfilled.

Article 11

1. The instructions for use of a foodstuff shall be indicated in such a way as to enable appropriate use to be made thereof.

2. Community provisions or, where there are none, national provisions may, in the case of certain foodstuffs, specify the way in which the instructions for use should be indicated.

The procedure laid down in Article 19 shall apply to such national provisions.

The Community provisions referred to in this paragraph shall be adopted in accordance with the procedure laid down in Article 20(2).

Article 12

The rules concerning indication of the alcoholic strength by volume shall, in the case of products covered by tariff heading Nos 22.04 and 22.05, be those laid down in the specific Community provisions applicable to such products.

In the case of other beverages containing more than 1,2 % by volume of alcohol, these rules shall be laid down in accordance with the procedure provided for in Article 20(2).

Article 13

1. (a) When the foodstuffs are prepackaged, the particulars provided for in Articles 3 and 4(2) shall appear on the prepackaging or on a label attached thereto.

(b) Notwithstanding point (a) and without prejudice to Community provisions on nominal quantities, where prepackaged foodstuffs are:

- intended for the ultimate consumer but marketed at a stage prior to sale to the ultimate consumer and where sale to a mass caterer is not involved at that stage,
- intended for supply to mass caterers for preparation, processing, splitting or cutting up,

the particulars required under Articles 3 and 4(2) need appear only on the commercial documents referring to the foodstuffs where it can be guaranteed that such documents, containing all the labelling information, either accompany the foodstuffs to which they refer or were sent before or at the same time as delivery.

(c) In the case referred to in point (b), the particulars referred to in Article 3(1) point 1, 5 and 7 and, where appropriate, that referred to in Article 10, shall also appear on the external packaging in which the foodstuffs are presented for marketing.

2. The particulars mentioned in Article 3 and Article 4(2) shall be easy to understand and marked in a conspicuous place in such a way as to be easily visible, clearly legible and indelible.

They shall not in any way be hidden, obscured or interrupted by other written or pictorial matter.

3. The particulars listed in Article 3(1), points 1, 4, 5 and 10 shall appear in the same field of vision.

This requirement may be extended to the particulars provided for in Article 4(2).

4. In the case of the glass bottles intended for reuse which are indelibly marked and which therefore bear no label, ring or collar and packaging or containers the largest surface of which has an area of less than 10 cm² only the particulars listed in Article 3(1) points 1, 4 and 5 need be given.

In this case, paragraph 3 shall not apply.

5. Ireland, the Netherlands and the United Kingdom may derogate from Article 3(1) and paragraph 3 of this Article in the case of milk and milk products put up in glass bottles intended for reuse.

They shall inform the Commission of any measure taken pursuant to the first subparagraph.

Article 14

Where foodstuffs are offered for sale to the ultimate consumer or to mass caterers without prepackaging, or where foodstuffs are packaged on the sales premises at the consumer's request or prepackaged for direct sale, the Member States shall adopt detailed rules concerning the manner in which the particulars specified in Article 3 and Article 4(2) are to be shown.

They may decide not to require the provision of all or some of these particulars, provided that the purchaser still receives sufficient information.

Article 15

This Directive shall not affect the provisions of national laws which, in the absence of Community provisions, impose less stringent requirements for the labelling of foodstuffs presented in fancy packaging such as figurines or souvenirs.

Article 16

1. Member States shall ensure that the sale is prohibited within their own territories of foodstuffs for which the particulars provided for in Article 3 and Article 4(2) do not appear in a language easily understood by the consumer, unless the consumer is in fact informed by means of other measures determined in accordance with the procedure laid down in Article 20(2) as regards one or more labelling particulars.

2. Within its own territory, the Member State in which the product is marketed may, in accordance with the rules of the Treaty, stipulate that those labelling particulars shall be given in one or more languages which it shall determine from among the official languages of the Community.

3. Paragraphs 1 and 2 shall not preclude the labelling particulars from being indicated in several languages.

Article 17
