SCHEDULES:

First Schedule.—Provisions as to the use of Registered Designs for the services of the Crown and as to Rights of Third Parties in respect of such use.

An Act to consolidate certain enactments relating to registered designs.

[16th December 1949]

Functions of Board of Trade and of President of Board of Trade now exercisable concurrently by Secretary of State: .S. I. 1970/1537, art. 2(1)

Registrable designs and proceedings for registration

Designs registrable under Act.

1.—

(1) Subject to the following provisions of this section, a design may, upon application made by the person claiming to be the proprietor, be registered under this Act in respect of any article or set of articles specified in the application.

(2) Subject to the provisions of this Act, a design shall not be registered thereunder unless it is new or original and in particular shall not be so registered in respect of any article if it is the same as a design which before the date of the application for registration has been registered or published in the United Kingdom in respect of the same or any other article or differs from such a design only in immaterial details or in features which are variants commonly used in the trade.

(3) In this Act the expression “design” means features of shape, configuration, pattern or ornament applied to an article by any industrial process or means, being features which in the finished article appeal to and are judged solely by the eye, but does not include a method or principle of construction or features of shape or configuration which are dictated solely by the function which the article to be made in that shape or configuration has to perform.

(4) Rules made by the Board of Trade under this Act may provide for excluding from registration thereunder designs for such articles, being articles which are primarily literary or artistic in character, as the Board think fit.

Proprietorship of designs.

2.—

(1) Subject to the provisions of this section, the author of a design shall be treated for the purposes of this Act as the proprietor of the design:

Provided that where the design is executed by the author for another person for good consideration, that other person shall be treated for the purposes of this Act as the proprietor.

(2) Where a design, or the right to apply a design to any article, becomes vested, whether by assignment, transmission or operation of law, in any person other than the original proprietor, either alone or jointly with the original proprietor, that other person, or as the case may be the original proprietor and that other person, shall be treated for the purposes of this Act as the proprietor of the design or as the proprietor of the design in relation to that article.

Proceedings for registration.

3.—

(1) An application for the registration of a design shall be made in the prescribed form and shall be filed at the Patent Office in the prescribed manner.

(2) For the purpose of deciding whether a design is new or original, the registrar may make such searches, if any, as he thinks fit.

(3) The registrar may refuse any application for the registration of a design or may register the design in pursuance of the application subject to such modifications, if any, as he thinks fit.

(4) An application which, owing to any default or neglect on the part of the applicant, has not been completed so as to enable registration to be effected within such time as may be prescribed shall be deemed to be abandoned.

(5) Except as otherwise expressly provided by this Act, a design when registered shall be registered as of the date on which the application for registration was made, or such other date (whether earlier or later than that date) as the registrar may in any particular case direct:

Provided that no proceedings shall be taken in respect of any infringement committed before the date on which the certificate of registration of the design under this Act is issued.

(6) An appeal shall lie from any decision of the registrar under subsection (3) of this section.

Registration of same design in respect of other articles, etc.

4.—

(1) Where the registered proprietor of a design registered in respect of any article makes an application—

- (a) for registration in respect of one or more other articles, of the registered design, or
- (b) for registration in respect of the same or one or more other articles, of a design consisting of the registered design with modifications or variations not sufficient to alter the character or substantially to affect the identity thereof,

the application shall not be refused and the registration made on that application shall not be invalidated by reason only of the previous registration or publication of the registered design:

Provided that the period of copyright in a design registered by virtue of this section shall not extend beyond the expiration of the original and any extended period of copyright in the original registered design.

(2) Where any person makes an application for the registration of a design in respect of any article and either—

- (a) that design has been previously registered by another person in respect of some other article; or
- (b) the design to which the application relates consists of a design previously registered by another person in respect of the same or some other article with modifications or variations not sufficient to alter the character or substantially to affect the identity thereof,

then, if at any time while the application is pending the applicant becomes the registered proprietor of the design previously registered, the foregoing provisions of this section shall apply as if at the time of making the application the applicant had been the registered proprietor of that design.

Provisions for secrecy of certain designs.

5.—

(1) Where, either before or after the commencement of this Act, an application for the registration of a design has been made, and it appears to the registrar that the design is one of a class notified to him by a competent authority as relevant for defence purposes, he may give directions for prohibiting or restricting the publication of information with respect to the design, or the communication of such information to any person or class of persons specified in the directions.

(2) Rules shall be made by the Board of Trade under this Act for securing that the representation or specimen of a design in the case of which directions are given under this section shall not be open to inspection at the Patent Office during the continuance in force of the directions.

(3) Where the registrar gives any such directions as aforesaid, he shall give notice of the application and of the directions to a competent authority, and thereupon the following provisions shall have effect, that is to say:—

- (a) the competent authority shall, upon receipt of such notice, consider whether the publication of the design would be prejudicial to the defence of the realm and unless a notice under paragraph (c) of this subsection has previously been given by that authority to the registrar, shall reconsider that question before the expiration of nine months from the date of filing of the application for registration of the design and at least once in every subsequent year;
- (b) for the purpose aforesaid, the competent authority may, at any time after the design has been registered or, with the consent of the applicant, at any time before the design has been registered, inspect the representation or specimen of the design filed in pursuance of the application;
- (c) if upon consideration of the design at any time it appears to the competent authority that the publication of the design would not, or would no longer, be prejudicial to the defence of the realm, that authority shall give notice to the registrar to that effect;
- (d) on the receipt of any such notice the registrar shall revoke the directions and may, subject to such conditions, if any, as he thinks fit, extend the time for doing anything required or

authorised to be done by or under this Act in connection with the application or registration, whether or not that time has previously expired.

(4) No person resident in the United Kingdom shall, except under the authority of a written permit granted by or on behalf of the registrar, make or cause to be made any application outside the United Kingdom for the registration of a design of any class prescribed for the purposes of this subsection unless—

- (a) an application for registration of the same design has been made in the United Kingdom not less than six weeks before the application outside the United Kingdom; and
- (b) either no directions have been given under subsection (1) of this section in relation to the application in the United Kingdom or all such directions have been revoked:

Provided that this subsection shall not apply in relation to a design for which an application for protection has first been filed in a country outside the United Kingdom by a person resident outside the United Kingdom.

(5) In this section the expression “competent authority” means a Secretary of State, the Admiralty or the Minister of Supply.

Reference to Admiralty to be construed as reference to Secretary of State: Defence (Transfer of Functions) Act 1964 (c. 15), ss. 1(2), 3(2)

Provisions as to confidential disclosure, etc.

6.—

(1) An application for the registration of a design shall not be refused, and the registration of a design shall not be invalidated, by reason only of—

- (a) the disclosure of the design by the proprietor to any other person in such circumstances as would make it contrary to good faith for that other person to use or publish the design;
- (b) the disclosure of the design in breach of good faith by any person other than the proprietor of the design; or
- (c) in the case of a new or original textile design intended for registration, the acceptance of a first and confidential order for goods bearing the design.

(2) An application for the registration of a design shall not be refused and the registration of a design shall not be invalidated by reason only—

- (a) that a representation of the design, or any article to which the design has been applied, has been displayed, with the consent of the proprietor of the design, at an exhibition certified by the Board of Trade for the purposes of this subsection;
- (b) that after any such display as aforesaid, and during the period of the exhibition, a representation of the design or any such article as aforesaid has been displayed by any person without the consent of the proprietor; or
- (c) that a representation of the design has been published in consequence of any such display as is mentioned in paragraph (a) of this subsection,

if the application for registration of the design is made not later than six months after the opening of the exhibition.

(3) An application for the registration of a design shall not be refused, and the registration of a design shall not be invalidated, by reason only of the communication of the design by the proprietor thereof to a Government department or to any person authorised by a Government department to consider the merits of the design, or of anything done in consequence of such a communication.

1956 c. 74.

[¹(4) Where copyright under the Copyright Act 1956, subsists in an artistic work, and an application is made by, or with the consent of, the owner of that copyright for the registration of a corresponding design, that design shall not be treated for the purposes of this Act as being other than new or original by reason only of any use previously made of the artistic work, unless—

- (a) the previous use consisted of or included the sale, letting for hire, or offer for sale or hire of articles to which the design in question (or a design differing from it only as mentioned in subsection (2) of section one of this Act) had been applied industrially, other than articles of a description specified in rules made under subsection (4) of section one of this Act, and
- (b) that previous use was made by, or with the consent of, the owner of the copyright in the artistic work.

(5) Any rules made by virtue of subsection (5) of section ten of the Copyright Act 1956 (which relates to rules for determining the circumstances in which a design is to be taken to be applied industrially) shall apply for the purposes of the last foregoing subsection.]

Effect of registration, etc.

Right given by registration.

7.—

(1) The registration of a design under this Act shall give to the registered proprietor the copyright in the registered design, that is to say, the exclusive right in the United Kingdom and the Isle of Man to make or import for sale or for use for the purposes of any trade or business, or to sell, hire or offer for sale or hire, any article in respect of which the design is registered, being an article to which the registered design or a design not substantially different from the registered design has been applied, and to make anything for enabling any such article to be made as aforesaid, whether in the United Kingdom or the Isle of Man or elsewhere.

1947 c. 44.

(2) Subject to the provisions of this Act and of subsection (3) of section three of the Crown Proceedings Act 1947, the registration of a design shall have the same effect against the Crown as it has against a subject.

Period of copyright.

8.—

(1) Copyright in a registered design shall, subject to the provisions of this Act, subsist for a period of five years from the date of registration.

(2) The registrar shall extend the period of copyright for a second period of five years from the expiration of the original period and for a third period of five years from the expiration of the second period if an application for extension of the period of copyright for the second or third period is made in the prescribed form before the expiration of the original period or the second period, as the case may be, and if the prescribed fee is paid before the expiration of the relevant period or [²if such application is made and the said fee is paid] within such further period (not exceeding [³six months]) as may be specified in a request made to the registrar and accompanied by the prescribed additional fee.

[⁴(3) Where in the case of a registered design it is shown—

- (a) that the design, at the time when it was registered, was a corresponding design in relation to an artistic work in which copyright subsisted under the Copyright Act 1956;
- (b) that, by reason of a previous use of that artistic work, the design would not have been registrable under this Act but for subsection (4) of section six of this Act; and
- (c) that the copyright in that work under the Copyright Act 1956, expired before the date of expiry of the copyright in the design,

the copyright in the design shall, notwithstanding anything in this section, be deemed to have expired at the same time as the copyright in the artistic work, and shall not be renewable after that time.]

Exemption of innocent infringer from liability for damages.

9.—

(1) In proceedings for the infringement of copyright in a registered design damages shall not be awarded against a defendant who proves that at the date of the infringement he was not aware, and had no reasonable ground for supposing, that the design was registered; and a person shall not be deemed to have been aware or to have had reasonable grounds for supposing as aforesaid by reason only of the marking of an article with the word “registered” or any abbreviation thereof, or any word or words expressing or implying that the design applied to the article has been registered, unless the number of the design accompanied the word or words or the abbreviation in question.

(2) Nothing in this section shall affect the power of the court to grant an injunction in any proceedings for infringement of copyright in a registered design.

Compulsory licence in respect of registered design.

10.—

(1) At any time after a design has been registered any person interested may apply to the registrar for the grant of a compulsory licence in respect of the design on the ground that the design is not applied in the United Kingdom by any industrial process or means to the article in respect of which it is registered to such an extent as is reasonable in the circumstances of the case; and the registrar may make such order on the application as he thinks fit.

(2) An order for the grant of a licence shall, without prejudice to any other method of enforcement, have effect as if it were a deed executed by the registered proprietor and all other necessary parties, granting a licence in accordance with the order.

(3) No order shall be made under this section which would be at variance with any treaty, convention, arrangement or engagement applying to the United Kingdom and any convention country.

(4) An appeal shall lie from any order of the registrar under this section.

Cancellation of registration.

11.—

(1) The registrar may, upon a request made in the prescribed manner by the registered proprietor, cancel the registration of a design.

(2) At any time after a design has been registered any person interested may apply to the registrar for the cancellation of the registration of the design on the ground that the design was not, at the date of the registration thereof, new or original, or on any other ground on which the registrar could have refused to register the design; and the registrar may make such order on the application as he thinks fit.

⁴ S. 8(3) added by Copyright Act 1956 (c. 74), s. 44(2)

[⁵(2A) At any time after a design has been registered, any person interested may apply to the registrar for the cancellation of the registration of the design on the grounds—

1956 c. 74.

- (a) that the design, at the time when it was registered, was a corresponding design in relation to an artistic work in which copyright subsisted under the Copyright Act 1956;
- (b) that, by reason of a previous use of that artistic work, the design would not have been registrable under this Act but for subsection (4) of section six of this Act; and
- (c) that the copyright in that work under the Copyright Act 1956, has expired;

and the registrar may make such order on the application as he thinks fit.]

he shall be deemed for the purposes of this section to have applied in that convention country.

Extension of time for applications under s. 14 in certain cases.

15.—

(1) If the Board of Trade are satisfied that provision substantially equivalent to the provision to be made by or under this section has been or will be made under the law of any convention country, they may make rules empowering the registrar to extend the time for making application under subsection (1) of section fourteen of this Act for registration of a design in respect of which protection has been applied for in that country in any case where the period specified in the proviso to that subsection expires during a period prescribed by the rules.

(2) Rules made under this section—

- (a) may, where any agreement or arrangement has been made between His Majesty's Government in the United Kingdom and the government of the convention country for the supply or mutual exchange of information or articles, provide, either generally or in any class of case specified in the rules, that an extension of time shall not be granted under this section unless the design has been communicated in accordance with the agreement or arrangement;

- (c) may prescribe or allow any special procedure in connection with applications made by virtue of this section;

- (e) may provide for securing that the rights conferred by registration on an application made by virtue of this section shall be subject to such restrictions or conditions as may be specified by or under the rules and in particular to restrictions and conditions for the protection of persons (including persons acting on behalf of His Majesty) who, otherwise than as the result of a

communication made in accordance with such an agreement or arrangement as is mentioned in paragraph (a) of this subsection, and before the date of the application in question or such later date as may be allowed by the rules, may have imported or made articles to which the design is applied or may have made an application for registration of the design.

Protection of designs communicated under international agreements.

16.—

(1) Subject to the provisions of this section, the Board of Trade may make rules for securing that, where a design has been communicated in accordance with an agreement or arrangement made between His Majesty's Government in the United Kingdom and the government of any other country for the supply or mutual exchange of information or articles,—

- (a) an application for the registration of the design made by the person from whom the design was communicated or his personal representative or assignee shall not be prejudiced, and the registration of the design in pursuance of such an application shall not be invalidated, by reason only that the design has been communicated as aforesaid or that in consequence thereof—
 - (i) the design has been published or applied, or
 - (ii) an application for registration of the design has been made by any other person, or the design has been registered on such an application;
- (b) any application for the registration of a design made in consequence of such a communication as aforesaid may be refused and any registration of a design made on such an application may be cancelled.

(2) Rules made under subsection (1) of this section may provide that the publication or application of a design, or the making of any application for registration thereof shall, in such circumstances and subject to such conditions or exceptions as may be prescribed by the rules, be presumed to have been in consequence of such a communication as is mentioned in that subsection.

(3) The powers of the Board of Trade under this section, so far as they are exercisable for the benefit of persons from whom designs have been communicated to His Majesty's Government in the United Kingdom by the government of any other country, shall only be exercised if and to the extent that the Board are satisfied that substantially equivalent provision has been or will be made under the law of that country for the benefit of persons from whom designs have been communicated by His Majesty's Government in the United Kingdom to the government of that country.

(4) References in the last foregoing subsection to the communication of a design to or by His Majesty's Government or the government of any other country shall be construed as including references to the communication of the design by or to any person authorised in that behalf by the government in question.

(3) The register of designs shall be prima facie evidence of any matters required or authorised by this Act to be entered therein.

(4) No notice of any trust, whether expressed, implied or constructive, shall be entered in the register of designs, and the registrar shall not be affected by any such notice.

Certificate of registration.

18.—

(1) The registrar shall grant a certificate of registration in the prescribed form to the registered proprietor of a design when the design is registered.

(2) The registrar may, in a case where he is satisfied that the certificate of registration has been lost or destroyed, or in any other case in which he thinks it expedient, furnish one or more copies of the certificate.

Registration of assignments, etc.

19.—

(1) Where any person becomes entitled by assignment, transmission or operation of law to a registered design or to a share in a registered design, or becomes entitled as mortgagee, licensee or otherwise to any other interest in a registered design, he shall apply to the registrar in the prescribed manner for the registration of his title as proprietor or co-proprietor or, as the case may be, of notice of his interest, in the register of designs.

(2) Without prejudice to the provisions of the foregoing subsection, an application for the registration of the title of any person becoming entitled by assignment to a registered design or a share in a registered design, or becoming entitled by virtue of a mortgage, licence or other instrument to any other interest in a registered design, may be made in the prescribed manner by the assignor, mortgagor, licensor or other party to that instrument, as the case may be.

(3) Where application is made under this section for the registration of the title of any person, the registrar shall, upon proof of title to his satisfaction—

- (a) where that person is entitled to a registered design or a share in a registered design, register him in the register of designs as proprietor or co-proprietor of the design, and enter in that register particulars of the instrument or event by which he derives title; or
- (b) where that person is entitled to any other interest in the registered design, enter in that register notice of his interest, with particulars of the instrument (if any) creating it.

(4) Subject to any rights vested in any other person of which notice is entered in the register of designs, the person or persons registered as proprietor of a registered design shall have power to assign, grant licences under, or otherwise deal with the design, and to give effectual receipts for any consideration for any such assignment, licence or dealing:

Provided that any equities in respect of the design may be enforced in like manner as in respect of any other personal property.

(5) Except for the purposes of an application to rectify the register under the following provisions of this Act, a document in respect of which no entry has been made in the register of designs under subsection (3) of this section shall not be admitted in any court as evidence of the title of any person to a registered design or share of or interest in a registered design unless the court otherwise directs.

Rectification of register.

20.—

(1) The court may, on the application of any person aggrieved, order the register of designs to be rectified by the making of any entry therein or the variation or deletion of any entry therein.

(2) In proceedings under this section the court may determine any question which it may be necessary or expedient to decide in connection with the rectification of the register.

(3) Notice of any application to the court under this section shall be given in the prescribed manner to the registrar, who shall be entitled to appear and be heard on the application, and shall appear if so directed by the court.

Power to correct clerical errors.

21.—

(1) The registrar may, in accordance with the provisions of this section, correct any error in an application for the registration or in the representation of a design, or any error in the register of designs.

(2) A correction may be made in pursuance of this section either upon a request in writing made by any person interested and accompanied by the prescribed fee, or without such a request.

(3) Where the registrar proposes to make any such correction as aforesaid otherwise than in pursuance of a request made under this section, he shall give notice of the proposal to the registered proprietor or the applicant for registration of the design, as the case may be, and to any other person who appears to him to be concerned, and shall give them an opportunity to be heard before making the correction.

Inspection of registered designs.

22.—

(1) Subject to the following provisions of this section and to any rules made by the Board of Trade in pursuance of subsection (2) of section five of this Act, the representation or specimen of a design registered under this Act shall be open to inspection at the Patent Office on and after the day on which the certificate of registration is issued.

(2) In the case of a design registered in respect of an article of any class prescribed for the purposes of this subsection, no representation or specimen of the design filed in pursuance of the application shall, until the expiration of such period after the day on which the certificate of registration is issued as may be prescribed in relation to articles of that class, be open to inspection at the Patent Office except by the registered proprietor, a person authorised in writing by the registered proprietor, or a person authorised by the registrar or by the court:

Provided that where the registrar proposes to refuse an application for the registration of any other design on the ground that it is the same as the first-mentioned design or differs from that design only in immaterial details or in features which are variants commonly used in the trade, the applicant shall be entitled to inspect the representation or specimen of the first-mentioned design filed in pursuance of the application for registration of that design.

(3) In the case of a design registered in respect of an article of any class prescribed for the purposes of the last foregoing subsection, the representation or specimen of the design shall not, during the period prescribed as aforesaid, be inspected by any person by virtue of this section except in the presence of the registrar or of an officer acting under him; and except in the case of an inspection authorised by the proviso to that subsection, the person making the inspection shall not be entitled to take a copy of the representation or specimen of the design or any part thereof.

(4) Where an application for the registration of a design has been abandoned or refused, neither the application for registration nor any representation or specimen of the design filed in pursuance thereof shall at any time be open to inspection at the Patent Office or be published by the registrar.

Information as to existence of copyright.

23. On the request of any person furnishing such information as may enable the registrar to identify the design, and on payment of the prescribed fee the registrar shall inform him whether the design is

registered, and if so, in respect of what articles, and whether any extension of the period of copyright has been granted and shall state the date of registration and the name and address of the registered proprietor.

Evidence of entries, documents, etc.

24.—

(1) A certificate purporting to be signed by the registrar and certifying that any entry which he is authorised by or under this Act to make has or has not been made, or that any other thing which he is so authorised to do has or has not been done shall be prima facie evidence of the matters so certified.

(2) A copy of any entry in the register of designs or of any representation, specimen or document kept in the Patent Office or an extract from the register or any such document, purporting to be certified by the registrar and to be sealed with the seal of the Patent Office, shall be admitted in evidence without further proof and without production of the original.

Legal proceedings and Appeals

Certificate of contested validity of registration.

25.—

(1) If in any proceedings before the court the validity of the registration of a design is contested, and it is found by the court that the design is validly registered, the court may certify that the validity of the registration of the design was contested in those proceedings.

(2) Where any such certificate has been granted, then if in any subsequent proceedings before the court for infringement of the copyright in the registered design or for cancellation of the registration of the design, a final order or judgment is made or given in favour of the registered proprietor, he shall, unless the court otherwise directs, be entitled to his costs as between solicitor and client:

Provided that this subsection shall not apply to the costs of any appeal in any such proceedings as aforesaid.

Remedy for groundless threats of infringement proceedings.

26.—

(1) Where any person (whether entitled to or interested in a registered design or an application for registration of a design or not) by circulars, advertisements or otherwise threatens any other person with proceedings for infringement of the copyright in a registered design, any person aggrieved thereby may bring an action against him for any such relief as is mentioned in the next following subsection.

(2) Unless in any action brought by virtue of this section the defendant proves that the acts in respect of which proceedings were threatened constitute or, if done, would constitute, an infringement of the copyright in a registered design the registration of which is not shown by the plaintiff to be invalid, the plaintiff shall be entitled to the following relief, that is to say:—

- (a) a declaration to the effect that the threats are unjustifiable;
- (b) an injunction against the continuance of the threats; and
- (c) such damages, if any, as he has sustained thereby.

(3) For the avoidance of doubt it is hereby declared that a mere notification that a design is registered does not constitute a threat of proceedings within the meaning of this section.

The Court.
1962 c. 30

27. Subject to the provisions of this Act relating to Scotland, Northern Ireland and the Isle of Man, any reference or application to the court under this Act, shall, subject to [⁷rules of court] [⁷rules made under section seven of the Northern Ireland Act 1962], be dealt with by such judge of the High Court as the Lord Chancellor may select for the purpose.

[⁸(2) The Appeal Tribunal shall consist of one or more judges of the High Court nominated for the purpose by the Lord Chancellor.

(4) The Appeal Tribunal may examine witnesses on oath and administer oaths for that purpose.

*⁽⁶⁾ The Appeal Tribunal shall, with regard to the right of audience, observe the same practice as before the first day of November, nineteen hundred and thirty-two, was observed in the hearing of appeals by the law officer.

(7) Upon any appeal under this Act the Appeal Tribunal may exercise any power which could have been exercised by the registrar in the proceeding from which the appeal is brought.

(8) Subject to the foregoing provisions of this section the Appeal Tribunal may make rules for regulating all matters relating to proceedings before it under this Act. [⁹including right of audience]

[¹⁰(8A) At any time when the Appeal Tribunal consists of two or more judges, the power to make rules under sub-section (8) of this section shall be exercisable by the senior of those judges:

Provided that another of those judges may exercise that power if it appears to him that it is necessary for rules to be made and that the judge (or, if more than one, each of the judges) senior to him is for the time being prevented by illness, absence or otherwise from making them.]

(9) An appeal to the Appeal Tribunal under this Act shall not be deemed to be a proceeding in the High Court.

[¹¹(10) For the purposes of this section the seniority of judges shall be reckoned by reference to the dates on which they were appointed judges of the High Court respectively.]

- (b) in relation to any use of the design by the licensee by virtue of an authority given under the last foregoing paragraph, that paragraph shall have effect as if the said sub-paragraph (3) were omitted.

(3) Subject to the provisions of the last foregoing sub-paragraph, where the registered design or the right to apply for or obtain registration of the design has been assigned to the registered proprietor in consideration of royalties or other benefits determined by reference to the use of the design, then—

- (a) in relation to any use of the design by virtue of paragraph 1 of this Schedule, sub-paragraph (3) of that paragraph shall have effect as if the reference to the registered proprietor included a reference to the assignor, and any sum payable by virtue of that sub-paragraph shall be divided between the registered proprietor and the assignor in such proportion as may be agreed upon between them or as may in default of agreement be determined by the court on a reference under the next following paragraph; and
- (b) in relation to any use of the design made for the services of the Crown by the registered proprietor to the order of a Government department, sub-paragraph (3) of paragraph 1 of this Schedule shall have effect as if that use were made by virtue of an authority given under that paragraph.

(4) Where, under sub-paragraph (3) of paragraph 1 of this Schedule, payments are required to be made by a Government department to a registered proprietor in respect of any use of a design, any person being the holder of an exclusive licence under the registered design (not being such a licence as is mentioned in sub-paragraph (2) of this paragraph) authorising him to make that use of the design shall be entitled to recover from the registered proprietor such part (if any) of those payments as may be agreed upon between that person and the registered proprietor, or as may in default of agreement be determined by the court under the next following paragraph to be just having regard to any expenditure incurred by that person—

- (a) in developing the said design; or
- (b) in making payments to the registered proprietor, other than royalties or other payments determined by reference to the use of the design, in consideration of the licence;

and if, at any time before the amount of any such payment has been agreed upon between the Government department and the registered proprietor, that person gives notice in writing of his interest to the department, any agreement as to the amount of that payment shall be of no effect unless it is made with his consent.
