(2) The search shall be conducted and the section 29 report and opinion prepared in accordance with arrangements made for that purpose approved by the Minister.

Within the same period the applicant shall also, where so requested by the Controller, furnish a statement as to whether such applications are still pending, have been accepted, are withdrawn or deemed to have been withdrawn or have been refused.”,

(c) in Rule 26 by substituting the following for paragraph (1) “The following foreign states are prescribed for the purpose of the statement referred to in section 30(1): the United Kingdom, Germany and any other state where a search report accompanied by a written opinion as to patentability for the application relating to the same invention has been prepared by the European Patent Office.”,

(d) by substituting the following for Rule 27:

## EXPLANATORY NOTE

*(This note is not part of the Instrument and does not purport to be a legal interpretation.)*

These amendments to the Patent Rules 1992 arise from changes to the Patents Act 1992 which re-introduce substantive examination of Irish patent applications. The rules set the procedural changes to support substantive examination including the submission of a search report and written opinion as to patentability of an invention. Third party observations to the Controller in relation to the patentability of applications are also provided for.
