Imported goods subject to customs control.

37. (1) Goods are subject to the control of the Customs Department from the time of importation until the time the goods are lawfully removed from a customs controlled area—

- (a) for home use;
- (b) for exportation from Saint Christopher and Nevis; or
- (c) under a customs procedure allowed under this Act when the Comptroller is satisfied that the conditions of any permit issued under such procedures have been met.

(2) For the purposes of subsection (1), goods which are removed from a customs controlled area to another customs controlled area are not removed for home use.

(3) The Minister may by regulations prescribe—

- (a) requirements for measuring and weighing goods; and
- (b) such other special requirements respecting the handling or processing of goods.

Entry of goods on importation.

38. (1) The importer of goods, other than goods which are exempt under subsection (2) from the requirements of this section, shall submit to the proper officer a truthful declaration or entry of the goods in such form and manner and within the relevant period or such other time period as may be prescribed.

(5) When an entry made under subsection (1) in relation to non-dutiable goods is inaccurate in any particular, the importer shall, within forty-eight hours of the submission of the entry or such longer period as the Comptroller may allow, submit to the proper officer a full and accurate account of the goods.

(6) Notwithstanding any other provision of any customs enactment, when an inaccurate entry is submitted and the Comptroller is satisfied that the inaccuracy was inadvertent and immaterial except for statistical purposes—

- (a) the importer does not commit an offence by reason only of the submission of the inaccurate entry; and
- (b) the goods in respect of which the inaccurate entry is submitted are not liable to forfeiture by reason only of such inaccuracy.

(7) Notwithstanding the failure to submit a declaration or entry under subsection (1), the Comptroller may permit the delivery, to the importer, of any bullion, currency, notes or coins imported into Saint Christopher and Nevis, but the importer incurs a fixed penalty of ten thousand dollars if he or she fails, within forty-eight hours after the delivery of the bullion, currency, notes or coins, to submit to the

proper officer a full and true account, including weight and value of such bullion, currency, notes or coins.

(8) If, by the time prescribed under subsection (1) for the submission of a declaration or entry—

- (a) the owner of the goods or his or her agent has not submitted the declaration or entry; or

the master or commander of the vessel or aircraft in which the goods were imported or the relevant agent may enter, unload or produce the goods for examination and clearance.

(9) Where the importer enters goods subsequent to the filing of a declaration or entry under subsection (8), that entry made by the importer of the goods shall be substituted for the entry made under subsection (8).

(10) A person entering goods may, in accordance with such conditions as the proper officer may impose—

(ii) the description of the goods is correct for tariff and statistical purposes;

(iii) in the case of goods liable to *ad valorem* duty, the value of the goods declared on the entry is approximately correct; and

(iv) in the case of goods liable to duty according to weight or measurement, the weight or measurement of the goods declared on the entry is correct.

Provisional assessment.

40. (1) Where, by reason of the failure of the importer to produce satisfactory documentary evidence of the value of the imported goods, the Comptroller is unable to make a proper assessment of the value of such goods for the purpose of entry, the Comptroller may direct that—

(a) the goods be examined;

(b) the proper officer makes a provisional assessment of the value of the goods and the duty payable on the goods;

(c) subject to this section, the goods are provisionally entered based on the payment of the amount of duty calculated by the importer; and

(d) the amount paid by the importer under paragraph (c) shall be brought to account as revenue.

(2) Pending final entry of the goods, where the duty provisionally assessed under subsection (1)(b) is greater than the duty calculated by the importer, the importer shall, in addition to the amount payable under subsection (1)(c), pay as a deposit to the Comptroller, an amount equal to the difference between the duty provisionally assessed and the duty calculated by the importer.

(c) the documents or other information relating to the value of the goods which the importer is required to produce within three months of the provisional entry.

(5) Where, upon the production of the additional documents or other information required under subsection (4)(c) to the satisfaction of the Comptroller, the duty assessed by the Comptroller is more than or less than the duty provisionally assessed—

- (a) the difference in duty shall be refunded to, or paid by, the importer; and
 - (b) any bond, money or deposit secured for the payment of the additional duties or charges shall be cancelled.
- (6) Unless an importer commences proceedings before the Commission—
- (a) the amount of duty which was provisionally assessed under subsection (1)(b) shall be treated as the final assessment; and
 - (b) the deposit paid shall be brought to account as revenue if—
 - (i) any document or other information required under subsection (4)(c) is not produced within the specified time; or
 - (ii) the importer informs the Comptroller, in writing before the expiration of the specified time, that he or she is unable to produce any further documents or information.

2. (1) The customs value of imported goods shall be determined under paragraph 3 whenever the conditions prescribed therein are fulfilled.

(2) Where such value cannot be determined under paragraph 3, it shall be determined by proceeding sequentially through paragraphs 4 to 7, inclusive, to the first such paragraph under which it can be determined, subject to the provision that, where the importer requests it and the Comptroller agrees, the order of application of paragraphs 6 and 7 shall be reversed.

(3) Except as provided for in sub-paragraph (2), it is only when the customs value of imported goods cannot be determined under a particular paragraph that the provisions of the next paragraph in the sequence established by sub-paragraph (2) can be applied.

(4) Where the customs value of imported goods cannot be determined under paragraphs 3 to 7, inclusive, it shall—

- (a) be determined using reasonable means consistent with the principles and general provisions of this Schedule;
- (b) to the greatest extent possible, be based on previously determined customs values; and
- (c) make use of the methods of valuation laid down in paragraphs 3 to 7, inclusive, using, where necessary, reasonable flexibility in their application.

- (a) that there are no restrictions as to the disposition or use of the goods by the buyer, other than restrictions which—
 - (i) are imposed or required by law or by the public authorities in Saint Christopher and Nevis;
 - (ii) limit the geographical area in which the goods may be resold; or
 - (iii) do not substantially affect the value of the goods;
 - (b) that the sale or price is not subject to some condition or consideration for which a value cannot be determined with respect to the goods being valued;
 - (c) that no part of the proceeds of any subsequent resale, disposal or use of the goods by the buyer will accrue directly or indirectly to the seller, unless an appropriate adjustment can be made in accordance with paragraph 8; and
 - (d) that the buyer and seller are not related, or, where the buyer and seller are related, that the transaction value is acceptable for customs purposes under sub-paragraph (2).
- (2) (a) In determining whether the transaction value is acceptable for the purposes of sub-paragraph (1), the fact that the buyer and the seller are related within the meaning of paragraph 1 shall not in itself be grounds for regarding the transaction value as unacceptable. Where necessary, the circumstances surrounding the sale shall be examined and the transaction value shall be accepted provided that the relationship did not influence the price. If, in the light of information provided by the importer or otherwise the Comptroller has grounds for considering that the relationship influenced the price, he or she shall communicate the grounds to the importer who shall be given a reasonable opportunity to respond;
- (b) in a sale between related persons, the transaction value shall be accepted and the goods valued in accordance with sub-paragraph (1) whenever the importer demonstrates that such value closely approximates to one of the following occurring at or about the same time—
- (i) the transaction value in sales, between buyers and sellers who are not related in any particular case, of identical or similar goods for export to Saint Christopher and Nevis;
 - (ii) the customs value of identical or similar goods, as determined under paragraph 6;
 - (iii) the customs value of identical or similar goods, as determined under paragraph 7,

in applying the foregoing texts, due account shall be taken of demonstrated differences in commercial levels, quantity levels, the elements enumerated in paragraph 8 and costs incurred by the seller in sales in which he or she and the buyer are not related that are not incurred by the seller in sales in which he or she and the buyer are related;

- (c) the tests set forth in sub-paragraph (2)(b) shall be used at the initiative of the importer and only for comparison purposes. Substitute values may not be established under that sub-paragraph.
- (3) (a) The price actually paid or payable is the total payment made or to be made by the buyer to or for the benefit of the seller for the imported goods. Payments may be made directly or indirectly, and need not necessarily take the form of a transfer of money, and shall include—
- (i) all payments made or to be made as a condition of sale of the imported goods by the buyer to the seller or by the buyer to a third party to satisfy an obligation of the seller; and
 - (ii) any settlement by the buyer, whether in whole or in part, of a debt owed by the seller;
- (b) activities, including marketing activities, undertaken by the buyer on his or her own account, other than those for which an adjustment is provided in paragraph 8, are not considered to be an indirect payment to the seller, even though they might be regarded as of benefit to the seller or have been undertaken by agreement with the seller, and their cost shall not be added to the price actually paid or payable in determining the customs value of imported goods.
- (4) The customs value of imported goods shall not include the following charges or costs, provided that they are distinguished from the price actually paid or payable for the imported goods—
- (a) charges for construction, erection, assembly, maintenance or technical assistance, undertaken after importation on imported goods such as industrial plant, machinery or equipment;
 - (b) customs duties and other taxes payable in Saint Christopher and Nevis by reason of the importation or sale of the goods;
- (5) The fact that goods which are the subject of sale are entered for home use within Saint Christopher and Nevis shall be regarded as adequate indication that they were sold for export to Saint Christopher and Nevis. This indication shall also apply where successive sales of goods have taken place before valuation. Where such successive sales have taken place each price resulting from them may be used as a basis for valuation.
4. (1) (a) The customs value of imported goods determined under this paragraph shall be the transaction value of identical goods sold for export to Saint Christopher and Nevis and exported at or about the same time as the goods being valued;
- (b) in applying this paragraph, the transaction value of identical goods in a sale at the same commercial level and in substantially the same quantity as the goods being valued shall be used to determine the customs value. Where no such sale is found, the transaction value of identical goods sold at a different commercial level and/or in different quantities, adjusted to take account of differences attributable to commercial level and/or to quantity, shall be used, provided that such adjustments can be made on the basis of demonstrated evidence which clearly establishes the reasonableness and accuracy of the adjustment, whether the adjustment leads to an increase or a decrease in value.
- (2) Where the costs and charges referred to in paragraph 8(1)(e) are included in the transaction value, an adjustment shall be made to take account of significant

differences in such costs and charges between the imported goods and the identical goods in question arising from differences in distances and modes of transport.

(3) In applying this paragraph—

- (a) if more than one transaction value of identical goods is found, the lowest such value shall be used to determine the customs value of the imported goods;
- (b) a transaction value for goods produced by a different person shall be taken into account only when no transaction value can be found under sub-paragraph (1) for identical goods produced by the same person as the goods being valued; and
- (c) a condition for adjustment because of different commercial levels or different quantities shall be that such adjustment shall be made only on the basis of demonstrated evidence that clearly establishes the reasonableness and accuracy of the adjustment.

(4) For the purposes of this paragraph, the transaction value of identical imported goods means a customs value previously determined under paragraph 3, adjusted as provided for in sub-paragraph (1)(b) and (2) of this paragraph.

5. (1) (a) The customs value of imported goods determined under this paragraph shall be the transaction value of similar goods sold for export to Saint Christopher and Nevis and exported at or about the same time as the goods being valued.

- (b) In applying this paragraph, the transaction value of similar goods in a sale at the same commercial level and in substantially the same quantity as the goods being valued shall be used to determine the customs value. Where no such sale is found, the transaction value of similar goods sold at different commercial level and/or in different quantities, adjusted to take account of differences attributable to commercial level and/or to quantity, shall be used, provided that such adjustments can be made on the basis of demonstrated evidence which clearly establishes the reasonableness and accuracy of the adjustment, whether the adjustment lead to an increase or a decrease in value.

(2) Where the costs and charges referred to in paragraph 8(1)(c) are included in the transaction value, an adjustment shall be made to take account of significant differences in such costs and charges between the imported goods and the similar goods in question arising from differences in distances and modes of transport.

(3) In applying this paragraph—

- (a) if more than one transaction value of similar goods is found, the lowest such value shall be used to determine the customs value of the imported goods;
- (b) a transaction value for goods produced by a different person shall be taken into account only when no transaction value can be found under subparagraph (1) for similar goods produced by the same person as the goods being valued;
- (c) a condition for adjustment because of different commercial levels or different quantities shall be that such adjustment shall be made only on the basis of demonstrated evidence that clearly establishes the reasonableness and accuracy of the adjustment.

(4) For the purposes of this paragraph, the transaction value of similar imported goods means a customs value previously determined under paragraph 3, adjusted as provided for in sub-paragraph (1)(b) and 2 of this paragraph.

6. (1) (a) If the imported goods or identical or similar imported goods are sold in Saint Christopher and Nevis in the condition as imported, the customs value of the imported goods, determined under this paragraph, shall be based on the unit price at which the imported goods or identical or similar imported goods are sold in the greatest aggregate quantity, at or about the time of the importation of the goods being valued, to persons who are not related to the persons from whom they buy such goods, subject to deductions for the following—

(i) either the commissions usually paid or agreed to be paid or the additions usually made for profit and general expenses (including the direct and indirect costs of marketing the goods in question) in connection with sales in Saint Christopher and Nevis of imported goods of the same class or kind;

(ii) the usual costs of transport and insurance and associated costs incurred within Saint Christopher and Nevis; and

(iii) the customs duties and other taxes payable in Saint Christopher and Nevis by reason of the importation or sale of the goods;

(b) if neither the imported goods nor identical nor similar imported goods are sold at or about the time of importation of the goods being valued, the customs value of imported goods determined under this paragraph shall, subject otherwise to the provisions of sub-paragraph (1)(a), be based on the unit price at which the imported goods or identical or similar imported goods are sold in Saint Christopher and Nevis in the condition as imported at the earliest date after the importation of goods being valued but before the expiration of ninety days after such importation.

(2) If neither the imported goods nor identical nor similar imported goods are sold in Saint Christopher and Nevis in the condition as imported, then, if the Comptroller so decides, the customs value shall be based on the unit price at which the imported goods, after further processing, are sold in the greatest aggregate quantity to persons in Saint Christopher and Nevis who are not related to the persons from whom they buy such goods, due allowance being made for the value added by such processing and the deductions provided for in sub-paragraph (1)(a). Where this method of valuation is used, deductions made for the value added by further processing shall be based on objective and quantifiable data relating to the cost of such work. Accepted industry formulas, recipes, methods of construction and other industry practices shall form the basis of the calculations.

(3) In this paragraph, the unit price at which imported goods or identical or similar imported goods are sold in the greatest aggregate quantity is the price at which the greatest number of units is sold in sales to persons who are not related to the persons from whom they buy such goods at the first commercial level after importation at which such sales take place.

(4) Any sale in Saint Christopher and Nevis to a person who supplies directly or indirectly free of charge or at a reduced cost for use in connection with the production and sale for export of the imported goods any of the elements specified in paragraph 8(1) (b), shall not be taken into account in establishing the unit price for the purposes of this paragraph.

(5) For the purposes of sub-paragraph (1)(a)(i)—

- (a) profit and general expenses shall be taken as a whole. The figure for the purposes of this deduction shall be determined on the basis of information supplied by or on behalf of the importer unless his or her figures are inconsistent with those obtaining in sales of imported goods of the same class or kind. Where the importer's figures are inconsistent with such figures, the amount for profit and general expenses may be based upon relevant information other than that supplied by or on behalf of the importer;
- (b) in determining either the commission or the additions usually made for profit and general expenses, the question whether certain goods are of the same class or kind as other goods shall be determined on a case-by-case basis by reference to the circumstances involved. In doing this, sales for which the necessary information can be provided of the narrowest group or range of imported goods of the same class or kind as the goods being valued should be examined; and
- (c) goods of the same class or kind includes goods imported from the same country as the goods being valued as well as goods imported from other countries.

(6) For the purposes of sub-paragraph (1)(b), the earliest date shall be the date by which sales of the imported goods or of identical or similar imported goods are made in sufficient quantity to establish the unit price.

7. (1) The customs value of imported goods determined under this paragraph shall be based on a computed value which shall consist of the sum of—

- (a) the cost or value of materials and fabrication or other processing employed in producing the imported goods;
- (b) an amount for profit and general expenses equal to that usually reflected in sales of goods of the same class or kind as the goods being valued which are made by producers in the country of exportation for export to Saint Christopher and Nevis; and
- (c) the cost or value of the items referred to in paragraph 8(1)(e).

(2) The cost or value of materials and fabrication referred to in sub-paragraph (1)(a) above shall include the cost of elements specified in paragraph 8(1)(a)(ii) and (iii). It shall also include the value, duly apportioned, of any element specified in paragraph 8(1)(b) which has been supplied directly or indirectly by the buyer for use in connection with the production of the imported goods. The value of the elements specified in paragraph 8(1)(b)(iv) which are undertaken in Saint Christopher and Nevis shall be included only to the extent that such elements are charged to the producer. No cost or value of an element referred to in this sub-paragraph shall be counted more than once in determining the computed value.

(3) The cost or value referred to in sub-paragraph (1)(a) shall be determined on the basis of information relating to the production of the goods being valued, supplied by or on behalf of the producer. It shall be based upon the commercial accounts of the producer, provided that these accounts are consistent with the generally accepted accounting principles applied in the country where the goods are produced.

(4) For the purposes of sub-paragraph (1)(b)—

- (a) the amount for profit and general expenses shall be taken as a whole and shall be determined on the basis of information supplied by or on behalf of the producer unless his or her figures are inconsistent with those usually reflected in sales of goods of the same class or kind as the goods being valued which are made by producers in the country of exportation for export to Saint Christopher and Nevis;
 - (b) if the producer's own figures for profit and general expenses are not consistent with those usually reflected in sales of the goods of the same class or kind referred to in sub-paragraph (4)(a) the amount for profit and general expenses may be based upon relevant information other than that supplied by or on behalf of the producer of the goods;
 - (c) goods of the same class or kind means goods imported from the same country as the goods being valued;
 - (d) whether goods are of the same class or kind as other goods shall be determined on a case-by-case basis with reference to the circumstances involved. In doing this, sales for export to Saint Christopher and Nevis of the narrowest group or range of goods of the same class or kind as the goods being valued for which the necessary information can be provided should be examined;
 - (e) the general expenses referred to cover the direct and indirect cost of producing and selling the goods for export which are not included under sub-paragraph (1)(a).
8. (1) In determining the customs value under paragraph 3, there shall be added to the price actually paid or payable for the imported goods—
- (a) the following, to the extent that they are incurred by the buyer but are not included in the price actually paid or payable for the goods—
 - (i) commission and brokerage, except buying commissions;
 - (ii) the cost of containers which are treated as being one of the customs purpose with the goods in question;
 - (iii) the cost of packing, whether for labour or materials;
 - (b) the value, apportioned appropriately of the following goods and services where supplied directly or indirectly by the buyer free of charge or at reduced cost for use in connection with the production and sale for export of the imported goods, to the extent that such value has not been included in the price actually paid or payable—
 - (i) materials, components, parts and similar items incorporated in the imported goods;
 - (ii) tools, dyes, moulds and similar items used in the production of the imported goods;
 - (iii) materials consumed in the production of the imported goods;
 - (iv) engineering, development, artwork, design work, and plans and sketches undertaken elsewhere than in Saint Christopher and Nevis and necessary for the production of the imported goods;
 - (c) royalties and licence fees, which among other things, may include payments in respect of patents, trademarks and copyrights, related to the goods being valued that the buyer must pay either directly or indirectly, as a condition of sale of the goods being valued, to the

extent that such royalties and fees are not included in the price actually paid or payable;

- (d) the value of any part of the proceeds of any subsequent resale, disposal or use of the imported goods that accrues directly or indirectly to the seller;
- (e)
 - (i) the cost of transport of the imported goods to the port or place of importation;
 - (ii) loading and handling charges associated with the transport of the imported goods to the port or place of importation; and
 - (iii) the cost of insurance.

(2) No additions shall be made to the price actually paid or payable in determining the customs value except as provided in this paragraph.

(3) Additions to the price actually paid or payable shall be made under this paragraph only on the basis of objective and quantifiable data; and if such do not exist a transaction value shall not be determined under the provisions of paragraph 3.

(4) In this paragraph, the term “buying commissions” means fees paid by an importer to his or her agent for the service of representing him or her abroad in the purchase of the goods being valued.

(5) Notwithstanding sub-paragraph (1)(c) of this paragraph—

- (a) charges for the right to reproduce the imported goods in Saint Christopher and Nevis shall not be added to the price actually paid or payable for the imported goods in determining the customs value; and
- (b) payments made by the buyer for the right to distribute or re-sell the imported goods shall be added to the price actually paid or payable for the imported goods if such payments are not a condition of the sale for export to Saint Christopher and Nevis of the goods.

9. (1) Charges for interest under a financing arrangement entered into by the buyer and related to the purchase of imported goods shall not be included in the customs value determined under paragraph 3 provided that—

- (a) the charges are distinguished from the price actually paid or payable for the goods;
- (b) the financing arrangement has been made in writing;
- (c) where required by the Comptroller, the buyer can demonstrate that—
 - (i) such goods are actually sold at the price declared as the price actually paid or payable; and
 - (ii) the claimed rate of interest does not exceed the level for such transactions prevailing in the country where, and at the time when, the finance was provided.

(2) The provisions of sub-paragraph (1) shall apply regardless of whether the finance is provided by the seller, a bank or another person; and it shall also apply, *mutatis mutandis*, where customs value is determined under a method other than the transaction value.

6. Where notice of claim in respect of anything seized is duly given in accordance with paragraph 3 and 4, the Comptroller shall take proceedings for the condemnation of that thing by the court, and if the court finds that the thing was at the time of its seizure liable to forfeiture, that court shall condemn that thing as forfeited.

7. Where anything is in accordance with either paragraphs 5 or 6 deemed to have been condemned or condemned as forfeited, then without prejudice to any restoration

(3) If the claimant accepts an amount tendered to him or her under sub-paragraph (1), he or she shall not be entitled to maintain any further action on account of the seizure, detention, restoration, sale or destruction of the thing seized.

(4) Where the claimant and the Comptroller are unable to agree upon the market value of anything destroyed under sections 202 and 204, that value shall be determined by the Customs Appeal Commissioners.
