THE PATENTS ACT, 1987
(No. 1 of 1987)

REGULATIONS

Made under section 75

THE PATENTS REGULATIONS, 1994

PRELIMINARY

1. These Regulations may be cited as the Patents Regulations, 1994 and shall come into operation on the first day of November, 1994.

Short title and commencement

2.—(1) In these Regulations unless the context otherwise requires—
“Act” means the Patents Act, 1987;
“agent” means a patent agent acting on behalf of an applicant for registration of a patent;
“priority date” means the filing date of the earlier application that serves as the basis for the right of priority as provided for in section 21;
“Section” refers to the specified section of the Act;

Interpretation

Words and phrases defined in the Act shall have the same meaning wherever used in these Regulations.

(2) The Interpretation and General Clauses Act, 1972, shall apply to the interpretation of these Regulations as it applies to the interpretation of an Act of Parliament.

Act, 1972 No. 30

3.—(1) The fees to be paid in respect of any of the matters arising under the Act and these Regulations shall be those specified in the First Schedule to these Regulations, and, in any case where a form specified in that Schedule as the corresponding form in relation to any matter is required to be used, that form shall be accompanied by the fee specified in respect of that matter.

Fees and forms

(2) The forms mentioned in these Regulations are those set out in the Second Schedule to these Regulations. Copies of the forms shall be obtainable from the Registrar.

4.—(1) All applications, submissions requests and written documents or texts filed with the Registrar pursuant to the Act or these Regulations which are in a language other than English shall be accompanied by an English translation verified to the satisfaction of the Registrar.

Language of documents and

(2) When more than one copy of a document is required to be filled or sent, a corresponding number of copies of the translation shall accompany them.

Address
for service

5. Every person concerned in any proceedings to which these regulations apply and every owner of a patent shall furnish to the Registrar an address for service in the United Republic and that address may be treated for all purposes connected with such proceedings or patent as the address of the person concerned in the proceedings or the owner of the patent.

Indication
of name,
address,
national-
ity and re-
sidence;
signature
by part-
nerships,
com-
panies
and as-
sociations

6.—(1) Names of natural persons shall be indicated by the persons family name and given name(s), the family name being indicated before the given name (2), the names of legal entities shall be indicated by their full, official designations.

(2) Addresses shall be indicated in such a manner as to satisfy the customary requirements for prompt postal delivery at the indicated address and, in any case, shall consist of all the relevant administrative units, including the house number, if any; addresses shall also indicate telegraphic and telex addresses and telephone numbers.

(3) Nationality shall be indicated by the name of the State of which a person is a national; legal entities shall indicate the name of the State under the laws of which they are constituted and the address of their registered office.

(4) Residence shall be indicated by the name of the State of which a person is a resident.

(5) (a) A document purporting to be signed for or on behalf of a partnership shall contain the names of all the partners in full and shall be signed by all the partners or by any partner qualified to sign, stating that he signs on behalf of the partnership, or by any other persons who satisfied the Registrar that he is authorised to sign the document. A document purporting to be signed for or on behalf of a body corporate shall be signed by a Director or by the Secretary or other principal officer of the body corporate, or by any other persons who satisfies the Registrar that he is authorised to sign the document and shall bear the seal of the body corporate; a document purporting to be signed for or on behalf of an association of persons may be signed by any person who satisfies the Registrar that he is duly authorised.

(b) The Registrar shall, whenever he deems it necessary, request evidence of authorization to sign.

Represent-
ation by
agent

7.—(1) Where an applicant's ordinary residence or principal place of business is outside the United Republic, he shall be represented by an agent resident and practising in the United Republic.

(2) The appointment of an agent shall be by a power of attorney which shall be signed by the applicant, or, if there is more than one applicant, by each applicant. The address of the agent shall, for all purposes connected with the Act and these Regulations, be treated as the address to which communications to the person or persons who appointed the agent shall be transmitted.

(3) The power of attorney shall be made on Form No. 1 and filed together with the application or within one month from its filing date. If the appointment is not thus made, and is not in accordance with sub-regulations (1) and (2), any procedural steps taken by the agent other than the filing of the application shall be deemed not to have been taken.

APPLICATIONS FOR PATENTS

8.—(1) The request for the grant of a patent shall be made, in triplicate, together with the payment of the prescribed fee, on Form No. 2.

Applications for the grant of patents

(2) The data concerning the applicant, the inventor and any agent shall include their full name's addresses and nationalities.

(3) The title of the invention shall be short and precise and indicate the matter to which the invention relates.

9.—(1) After stating the title of invention, the description shall:—

Description

- (i) specify the technical field or fields to which the invention relates
- (ii) indicate the background art which, as far as known to the applicant, can be regarded as useful for the understanding, searching and examination of the invention, and, preferably, cite the documents reflecting such background art;
- (iii) disclose the invention, as claimed, in such terms that the technical problem (even if not expressly stated as such) and its solution can be understood, and state the advantageous effects, if any, of the invention with reference to the background art;
- (iv) briefly describe the figures in the drawings, if any;
- (v) set forth the best mode known to the applicant for carrying out the invention known to the inventor at the filing date or, where priority is claimed, priority date of the application; this shall be done in terms of examples, where appropriate, and with reference to the drawings, if any; and
- (vi) indicate explicitly when it is not otherwise obvious from the description or nature of the invention, the way or ways in which the invention is capable of industrial application or of other use.

(2) The contents of the description shall be presented in the order in which such contents are listed in sub-regulation (1), unless, because of the nature of the invention, a different order affords a better understanding and a more economical presentation.

10.—(1) If the contents of an application for a patent or of a patent discloses an invention which requires for its performance the use of a micro-organism which is not available to the public at its date of filing, these contents shall be treated as disclosing the invention in a manner which is clear and complete enough for the invention to be performed by a person skilled in the art if the following conditions are satisfied:

Micro-organisms

a culture of the micro-organism has been deposited in a culture collection not later than the date of filing the application;

- (ii) the application as filed gives such relevant information as is available to the applicant on the characteristics of the micro-organism; and
- (iii) the name of the culture collection, the date when the culture was deposited and the accession number of the deposit are given in the description of the application.

(2) The giving of the information specified in sub-regulating the unreversed and irrevocable consent of the applicant to the culture deposited being made available to any person who, on or after the date of publication of the application, makes a valid request therefor to the culture collection with which the micro-organism is deposited. A request shall be valid if it is accompanied by the Registrar's certificate authorizing the release of the sample to that person. An application for such a certificate shall be submitted to the Registrar, accompanied by the prescribed fee, on Form No. 3, together with:

- (a) an undertaking not to make the culture available to any other person until the application for the patent is refused or withdrawn or deemed to be withdrawn or, if a patent is granted, until it ceased to have effect without the possibility of renewal or restoration; and
- (b) an undertaking to use the culture for experimental purposes only until the application is refused or withdrawn or deemed to be withdrawn or until the date of publication in the *Gazette* that the patent has been granted.

(3) The Registration shall send a copy of Form No. 3 to the applicant for, or owner of, the patent.

Claim

11.—(1) Where an application contains several claims, they shall be numbered consecutively in arabic numerals.

(2) The definition of the subject matter for which protection is sought shall be in terms of the technical features of the invention.

(3) Claims shall be written either:

- (i) in two parts, the first part consisting of a statement indicating those technical features of the invention which are necessary in connection with the definition of the claimed subject matter and which, in combination, appear to be part of the prior art, the second part ("the characterizing portion"), introduced by the words "characterized in that," "characterized by," "wherein the improvement comprises", or other words to the same effect, consisting of a statement concisely indicating those technical features which, in combination with the features stated in the first part, define the subject matter for which protection is sought:
or

- (ii) in a single statement containing a recitation of a combination of several elements or steps, or single element or step, which defines the matter for which protection is sought.

(4)—(a) No claim shall contain, in respect of the technical features of the invention, references to the description or any drawings, for example, such references as: “as described in part.....of the description, “or” as illustrated in figure.....of the drawings, “unless such a reference is necessary for the understanding of the claim or enhances the clarity or the conciseness of the claim.

(b) No claim shall contain any drawing or graph. A claim may contain tables and chemical or mathematical formulas.

(c) Where the application contains any drawing, any technical feature mentioned in any claim may, if the intelligibility of that claim can hereby be enhanced, include a reference sign to that drawing or to the applicable part of that drawing such a reference sign shall be placed between square brackets or parentheses and shall not be construed as limiting the claim.

(5)—(a) Any claim which includes all the features of one or more other claims of the same category (hereinafter referred to as “dependent claim” or “multiple dependent claim,” respectively) shall preferably first refer to the other claim or claims by indicating the serial number of the other claim or the serial numbers of the other claims and then state those features claimed that are additional to the features claimed in the other claim or claims.

(b) Dependent claims or multiple dependent Claims may depend on dependent claims or multiple dependent claims. multiple dependent claims may refer in the alternative or in the cumulative to the claims on which they depend.

(c) All dependent claims referring to the same other claim and all multiple dependent claims referring to the same other claims, shall be grouped together in the most practical way possible.

12.—(1) Drawings forming part of an application for patent shall be on sheets the usable surface area of which shall not exceed 26.2 cm by 17 cm. The sheets shall not contain frames round the usable or used surface. The minimum margins shall be as follows:—

Drawings

top	2.5 cm
left side	2.5 cm
right side	1.5 cm
bottom	1.0 cm

(2) Drawings shall be executed as follows:—

- (a) without colouring in durable, black sufficiently dense and dark, uniformly thick and well-defined lines and strokes to permit satisfactory reproduction;

- (b) cross-sections shall be indicated by hatching which does not impede the clear reading of the reference signs and leading lines;
 - (c) the scale of the drawings and the distinctness of their graphical execution shall be such that a photographic reproduction with a linear reduction in size to two-thirds would enable all details to be distinguished without difficulty. If, as an exception, the scale is given on a drawing it shall be represented graphically;
 - (d) all numbers, letters and reference signs appearing in the drawings shall be simple and clear and brackets, circles and inverted commas shall not be used in association with numbers and letters;
 - (e) elements of the same figures shall be in proportion to each other, unless a difference in proportion is indispensable for the clarity of the figure;
 - (f) the height of the numbers and letter shall not be less than 0.32 cm and for the lettering of drawings, the Latin and, where customary, the Greek alphabets shall be used;
 - (g) the same sheet of drawings may contain several figures. Where figures drawn on two or more sheets are intended to form one whole figure, the figures on the several sheets shall be so arranged that the whole figure can be assembled without concealing any part of the partial figures. The different figures shall be arranged without wasting space, clearly separated from one another. The different figures shall be numbered consecutively in arabic numerals, independently of the numbering of the sheets;
 - (h) reference signs not mentioned in the description or claims shall not appear in the drawings, and *vice versa*. The same features, when denoted by reference signs, shall, throughout the application, be denoted by the same signs;
 - (i) the drawings shall not contain textual matter, except, when required for the understanding of the drawings, a single word or words such as "water", "steam", "open", "closed", "section on AA" and in the case of electric circuits and block schematic or flow sheet diagrams, a few short catchwords; and
 - (j) the sheets of the drawings shall be numbered in accordance with regulation 14(9).
- (3) Flow sheets and diagrams shall be considered to be drawings for the purposes of these Regulations.

Abstract

13.—(1) The abstract shall commence with the title of the invention.

(2) The abstract shall contain a concise summary of the matter contained in the description of the invention. The summary shall indicate the technical field to which the invention belongs and be drafted in a manner which allows a clear understanding of the technical problem to which the invention relates, the gist of the solution to that problem through the invention and the principal use or uses of the invention.

Where appropriate, the abstract shall also contain the chemical formula which, among those contained in the specification, best characterizes the invention. It shall not contain statements on the alleged merits or value of the invention or on its speculative application.

(3) The abstract shall normally not contain more than 150 words.

(4) If the description of the invention contains any drawings, the applicant shall indicate on Form No. 2 the figure or, exceptionally, the figures of the drawings which he suggests should accompany the abstract when published. The Registrar may decide to publish one or more other figures if he considers that they best characterize the invention.

(5) The abstract shall be so drafted that it constitutes an efficient instrument for the purposes of searching in a particular technical field, in particular by making it possible to assess whether there is a need to consult the description of the invention itself.

14.—(1) The description, claims, drawing(s), abstract and any replacement sheet thereof shall be filed in triplicate.

(2) All documents shall be so presented as to permit direct reproduction by photography, electrostatic processes, photo offset and micro-filming, in an unlimited number of copies. All sheets shall be free from cracks, creases and folds. Only one side of the sheet shall be used, except in the case of a request for the grant of a patent.

(3) All such documents and drawings shall be on A4 paper (29.7cm × 21 cm) which shall be pliable, strong, white, smooth, matt and durable. Each sheet (other than the drawing) shall be used with its short sides at the top and bottom (upright position).

(4) The request for the grant of a patent and the description, claims, drawings and abstract shall each commence on a new sheet. The sheets shall be connected in such a way that they can easily be turned over, separated and joined together again.

(5) Subject to Regulation 12(1), the minimum margins shall be as follows:

top	2cm
left side	2.5cm
right side	2cm
bottom	2cm

(6) The margins of the documents making up the application and of any replacement documents must be completely blank.

(7) In the application, except in the drawings—

(a) all sheets in the request shall be numbered consecutively; and

(b) all other sheets shall be numbered consecutively as a separate series, and all such numbering shall be in arabic numerals placed at the top of the sheet, in the middle, but not in the top margin.

Size and presentation of documents

(8) In the application, every fifth line of each sheet of the description and the claims shall be numbered in arabic numerals placed to the left of the relevant lines but to the right of the margin.

(9) All sheets of drawings contained in the application shall be numbered consecutively as a separate series. Such numbering shall be in arabic numerals placed at the top of the sheet, in the middle, but not in the top margin.

(10) Every document (other than drawings) referred to in sub-regulation (1) above shall be typed or printed in a dark, indelible colour, at least 1½ line spacing and in characters of which the capital letters are not less than 0.21 cm high. Graphic symbols and characters and chemical and mathematical formulae may, when necessary, be written by hand or drawn, in a dark indelible colour.

(11) The request for the grant of a patent, the description, the claims and the abstract shall not contain drawings. The description, the claims and the abstract may contain chemical or mathematical formulae. The claims may contain tables only if their subject-matter makes the use of tables desirable.

(12) In all documents, including drawings, units of weight and measures shall be expressed in terms of the metric system. If a different system is used they shall also be expressed in terms of the metric system. Temperatures shall be expressed in degrees Celsius. For the other physical values, the units recognized in international practice shall be used, for mathematical formulae the symbols, in general use, and for chemical formulae the symbols, atomic weights and molecular formulae in general use shall be employed. In general, use should be made of technical terms, signs and symbols generally accepted in the field in question.

(13) If a formulae or symbols is used in the specification a copy thereof, prepared in the same manner as drawings, shall be furnished if the Registrar so directs.

(14) The terminology and the signs shall be consistent throughout the application.

15. The sworn declaration under Section 18(2)(b) shall include an indication of the legal grounds of the applicant's entitlement to file the application and shall accompany the request for grant of the patent (Form No. 2).

Declaration concerning the entitlement of the applicant

16. The application shall not contain:—

- (i) expressions or drawings contrary to public order or morality;
- (ii) statements disparaging the products or processes of any particular person other than the applicant, or the merits of validity of applications or patents of any such person (mere comparisons with the prior art shall not be considered disparaging per se);
- (iii) any statement or other matter obviously irrelevant or unnecessary under the circumstances.

Expressions,
etc., not
to be used

17.—(1) Where a group of inventions is claimed, the requirement of unity of invention referred to in Section 19 shall be fulfilled only if there is a technical interrelationship between those inventions involving one or more of the same or corresponding special technical features. The expression "special technical features" shall mean those technical features which define the contribution which each of the inventions as claimed, considered as whole, makes over the prior art.

Unity of
invention;
claims in
different
categories

(2) The determination whether a group of inventions is so linked as to form a single general inventive concept shall be made without regard to whether the inventions are claimed in separate claims or as alternatives within a single claim.

(3) An application for a patent which includes in particular:—

- (a) in addition to an independent claim for a product, in independent claim for a process specially adapted for the manufacture of the product, and an independent claim for a use of the product; or
- (b) in addition to an independent claim for a process, and independent claim for an apparatus or means specifically designed for carrying out the process; or
- (c) in addition to an independent claim for a product, and independent claim for a process specially adapted for the manufacture of the product, an independent claim for an apparatus or means specifically designed for carrying out the process shall be treated as being related to a group of inventions which are so linked as to form a single inventive concept.

(4) Failure to comply with the requirement of unity of invention shall not be a ground for invalidation or revocation of a patent.

18.—(1) Where the Registrar finds that the requirement of unity of invention is not complied with, the applicant shall have the right to file one or more divisional applications during a period of two months following the communication to him of that finding.

Division
of applica-
tion

(2) The right of the applicant referred to in Section 20(2) to file, on his own initiative, one or more divisional applications may be exercised at any time up to the time when the applications from which a divisional application is derived is in order for grant.

(3) Priority documents and any required translations thereof that have been submitted to the Registrar in respect of the application from which one or more divisional applications are derived shall be considered as having been submitted also in respect of all the divisional applications.

Declara-
tion of
priority;
furnishing
transla-
tion of
earlier ap-
plications

19.—(1) The declaration of priority for purposes of Section 21 shall be made at the time of filing the application for a patent and shall indicate:

- (a) the date(s) of the earlier application(s);
- (b) the number(s) of the earlier application(s) subject to subregulation (2);
- (c) the symbol of the International Patent Classification which has been allocated to the priority application(s), subject to subregulation (3);
- (d) the State(s) in which the earlier application(s) was filed or, where the earlier application is a regional or an international application, the State or states for which it was filed;
- (e) where the earlier application is a regional or an international application, the Office with which it was filed.

(2) Where at the time of filing the declaration referred to in subregulation (1), the number of the earlier application is not known, that number shall be furnished within three months from the date of filing of the application for a patent.

(3) Where a symbol of the International Patent Classification has not been allocated to be priority application, or had not yet been allocated at the time of filing the declaration referred to in subregulation (1), the applicant shall state this fact in the said declaration and shall communicate such symbol as soon as it has been allocated.

(4) The period for furnishing the certified copy of the earlier application, referred to in section 21(2), shall be one month from the date of the request by the Registrar and where a copy has already been furnished for another application, the applicant may respond by making a reference to that other application.

(5) Where the earlier application referred to in section 21(2) is in a language other than English the applicant shall, within three months from the date of the request referred to in subregulation (4), furnish an English translation of the earlier application.

(6) Unless the Registrar requests otherwise, the earlier application and any translation thereof shall be filed in one copy.

20.—(1) The request of the Registrar referred to in Section 22 shall be made on Form No. 4.

(2) The time limits to be specified for furnishing the information requested under section 22 shall not be less than two not more than six months from the date such a request is made; upon a reasoned request by the applicant, the Registrar may extend the time limit.

(3) If the applicant replies that the documents requested under section 22 are not yet available, the Registrar may suspend the procedure for the examination of the application until such time as the documents are furnished.

Information concerning corresponding foreign applications, patents, and other titles of protection

21.—(1) An application shall be withdrawn by written request submitted to the Registrar and signed by each applicant.

(2) The application fee, or any other fee paid to the Registrar, shall not be refunded if an application is withdrawn.

Withdrawal of application

22. The right of the applicant to amend or correct, on his own initiative, the application or to comply with a requirement applicable to the application may be exercised up to the time when the application is in order for grant.

Amendments or corrections on applicant's initiative

FILING DATE: FORMALITIES EXAMINATION: SUBSTANTIVE EXAMINATION

23.—(1) Upon receipt, the Registrar shall mark, on each document making up the application, the actual date of receipt and the application number consisting of the letters TZ, slant, the letter P, slant, the last two numbers of the year in which the initial papers were received, slant, and a five-digit number allotted in the sequential order in which applications are received; where any corrections or other later filed documents are received on different dates, the Registrar shall also mark their actual date of receipt in the appropriate place of the request for grant of the patent (Form No. 2).

Marking application

(2) The application number allotted under sub-regulation (1) shall be quoted in all subsequent communications concerning the application.

24.—(1) Once the Registrar accords a filing date, he shall promptly notify the applicant in writing.

Filing date

(2) Notwithstanding Section 25(1), a reference to another previously filed application for the same invention by the same applicant or his predecessor in title may, for the purposes of establishing the filing date in accordance with section 25(1), replace any of the following elements:

- (i) the part which, on the face of it, appears to be a description of an invention, referred to in Section 25(1)(a)(ii).

- (ii) the part which, on the face of it, appears to be a claim or claims, referred to in Section 25(1)(a)(iii)
- (iii) any drawings.

provided that the said parts and drawings and, where the other application was not filed with the Patents Office, a certified copy of the other application are received by the Registrar within three months from the date on which the application containing the reference to the previously filed application had been received by the Registrar. If the said parts and drawings and, where required, the certified copy, are received within the said time limit, the filing date of the application shall, provided that the other requirements concerning the filing date are fulfilled, be the date on which the application containing the reference to the previously filed application was received by the Registrar.

(3) If the description and the claim or claims referred to in Section 25(1)(a)(ii) and (iii) and any text matter contained in the drawings are not in English, a translation thereof into English shall be provided to the Registrar within three months from the date on which the item requiring translations was received by the Registrar. If the translation is so received, the said part and the said text matter shall be considered as if they had been received on the date in which they were received in the other language.

(4) Any translation furnished in accordance with subregulation (2) may be corrected up to the time when the application is in order for grant, in order to conform to the wording of those parts of the application filed in the language other than English.

Examina-
tion as to
form;
unity of
invention

25.—(1) The time limit for remedying any defects as provided for in Section 25(3)(b) and (4)(b) shall be three months from the date of the invitation to do so. The required correction shall be filed, together with the prescribed fee, on Form No. 5

(2) If the Registrar rejects the application under Section 25(3)(b) or (4)(b), he shall notify the applicant on Form No. 6, stating the reasons therefor.

(3) Where the Registrar is satisfied that the application complies with the requirements of Section 25(3)(a) and (4)(a), he shall notify the applicant of that fact on Form No. 7

Interna-
tional
type
search;
Time
Limits

26.—(1) The time limits for paying the fees referred to in Section 26(2)(a) shall be one month from the date of the invitation to do so.

(2) The time limit for submitting any copy of a document referred to in Section 26(3) shall be two months from the date of the request to do so.

(3) (a) Before rejecting an application under Section 26(4), the Registrar shall notify the applicant of Form No. 8 that the application does not comply with the requirements of Section 26(4) and give him an opportunity to submit comments or amend his application.

- (b) The time limit for submitting comments or amendments shall be two months from the date the Registrar notifies the applicant that the application does not comply with the requirements of Section 26(4).

(4) If the Registrar rejects the application under Section 26(4), he shall notify the applicant, on Form No. 9, stating the reasons therefor.

27. Applications for patents, irrespective of the technical field to which they relate, shall provisionally, not be subject of an examination as to substance.

Examination as to substance

GRANT, PUBLICATION AND ISSUANCE OF PATENT

28.—(1) (a) The Registrar shall notify the applicant, on Form No. 10, of the decision to grant a patent, requesting the applicant to pay the grant and publication fee within three months from the date of the notification.

Grant of Patent, publication thereof

(b) Upon the payment of the grant and publication fees as requested pursuant to Regulation 27(5), the Registrar shall allot the patent a registration and publication number, in the sequential order of grant, and shall publish a reference to the grant.

(2) The publication of the reference to the grant of the patent shall include:—

- (a) the number of the patent;
- (b) the name of the owner of the patent;
- (c) the name of the inventor, subject to section 17;
- (d) the name and address of the agent, if any;
- (e) the filing date and number of the application;
- (f) if priority has been claimed and the claim has been accepted, statement of the priority, the priority date and the name of the country or countries in which or for which the earlier application was filed;
- (g) the effective date of grant of the patent;
- (h) the title of the invention;
- (i) the abstract;
- (j) the most illustrative of the drawings, if any; and
- (k) the symbol of the International Patent Classification.

29.—(1) The patent shall be granted on Form No. 11 and shall contain, in addition to the information indicated in regulation 28(2), the date of publication of the patent and the address of the inventor and the owner of the patent, and shall be accompanied in by the description, the claims and the drawings, if any.

Issuance, form and certificate of grant

(2) The patent shall be deemed to be granted on the date the Registrar publishes a reference to the grant, in accordance with regulation 28(2).

(3) The patent shall be issued to the applicant not later than four months from publication of grant and at that time, a certificate of grant shall be issued to the applicant on Form No. 12.

MAINTENANCE OF PATENT

Annual fees

30.—(1) If it is desired to keep an application or patent in force for a further year after the expiration of the first or any succeeding year from the filing date of the application, Form No. 13, in respect of the next succeeding year, accompanied by the prescribed annual fee for that year, shall be filed within (three) months before the expiration of the first or succeeding year, as the case may be.

(2) On receipt of the prescribed fee, the Registrar shall issue a certificate of payment on the appropriate portion of the Form.

(3) A request for the grant of a grace period under Section 39(2) shall be made on Form No. 14, accompanied by the appropriate fee and surcharge.

Extension of term of patent under section 38(2)

31. The request to extend the term of the patent under Section 38(2) shall be made on Form No. 15, together with a statement signed by the owner of the patent setting out the particulars of the working of the invention in the United Republic or indicating reasons for the failure to work the invention in the United Republic.

Restoration of lapsed patents and applications which are deemed to have been withdrawn

32.—(1) An application under Section 39(4) shall be made on Form No. 16 and shall be supported by evidence in support of the statements made in that application.

(2) If, upon consideration of the evidence the Registrar is not satisfied that a case for an order under Section 39(4)(b) has been made out, he shall notify the person requesting restoration accordingly and, unless within one month such person requests to be heard in the matter, the Registrar shall refuse the application.

(3) If the Registrar decides to allow the application, he shall notify the person requesting restoration accordingly and require him to file Form No. 17, together with Form No. 13. Upon payment of the unpaid annual fee and the restoration fee, the Registrar shall order the restoration of the patent and publish this fact in the *Gazette*.

Surrender of patent or claim under section 62

33.—(1) Notice of an offer by an owner of a patent to surrender his patent, or a claim or claims therein, under Section 62, shall be given on Form No. 18.

(2) (a) At any time within three months from the publication of a notice of an offer to surrender, any person may give to the Registrar notice of opposition to the surrender, on Form No. 19 a copy of which the Registrar shall send to the owner of the patent;

- (b) Within three months of the receipt of the copy, the owner of the patent shall, if he wishes to continue with the surrender, file a counter-statement, in duplicate, setting out fully the grounds upon which the opposition is resisted; the Registrar shall send a copy of the counter-statement to the opponent;
- (c) The Registrar may give such directions as he may think fit with regard to the subsequent procedure.

PATENTS REGISTER

34.—(1) The Registrar shall cause to be entered in the register in respect of every patent, in addition to the information indicated in regulation 28(2):—

Entries in the register

- (a) the address for service;
- (b) the date on which the patent expired or was surrendered or invalidated;
- (c) any assignment of the patent or application therefor;
- (d) the grant of any licence contract;
- (e) the grant, cancellation and variation of the terms of any compulsory licence with respect to the patent; and
- (f) the fact that licences under the patent are available as of right.

(2) The Registrar may at any time enter in the register such other particulars as he may think fit.

35.—(1) A request by the owner of a patent or an applicant for a patent for the alteration of a name, nationality, address or address for service on record in respect of his patent or application shall be made on Form No. 20.

Change of name, address or address for service

(2) Before acting on a request to alter name or nationality, the Registrar may require such proof of the alteration as he thinks fit.

(3) If the Registrar is satisfied that the request should be allowed, he shall cause the patent or application therefor and, where the name, nationality or address has been recorded in the register, the register to be altered accordingly.

36.—(1) A request for recordal of the change of ownership of an application for a patent or a patent, pursuant to Section 40, shall be made on Form No. 21.

Change of ownership

(2) In order to be accepted for recordal purposes, an agreement assigning the ownership of the patent application or the patent must contain at least the number and date of the patent application or the patent, the title of the invention and the names, addresses, nationalities, and signatures of the assignor and assignee.

(3) If the Registrar is satisfied that the request should be allowed, he shall cause the patent or application therefor and where the ownership has been recorded in the register, the register to be altered accordingly.

Inspection of register

37.—(1) Entries in the register shall be made available for inspection by the public between the hours of (10 a.m. and 3 p.m. on week days other than Saturdays and public holidays).

(2) A request to be allowed to inspect the register shall be made on Form No. 22.

Request for certified copies)

38. Requests for certified copies of or extracts from the register or for copies of documents shall be made to the Registrar on Form No. 22.

Request for corrections of errors

39.—(1) A request for correction of an error in the register or in any document filed with the Registrar in connection with registration shall be made on Form No. 23.

(2) (a) A request for the correction of an error of translation or transcription, a clerical error or mistake in the claims, description or drawings of a patent or application for a patent or any document filed in connection with a patent or such an application shall be made on Form No. 24.

(b) Where such a request relates to the claims, description or drawings, no correction shall be made therein unless the correction is obvious in the sense that it is immediately evident that nothing else would have been intended than what is offered as the correction.

(c) Where the correction of a patent is requested, the Registrar may require notice of the proposed correction to be advertised. The advertisement shall be made by publication of the request and the nature of the proposed correction.

(d) Any person may, at any time within three months after the date of the publication, give, to the Registrar, notice of opposition to the request on Form No. 25, in duplicate. The notice of opposition shall be supported by a statement in duplicate setting out fully the facts on which the opponent relies and the relief which he seeks.

(e) The Registrar shall send a copy of the notice and the statement to the person making the request who, if he desires to proceed with his request, shall within three months of the receipt of the copies file a counter-statement in duplicate setting out fully the grounds on which he contests the opposition and the Registrar shall send a copy of the counter-statement to the opponent.

(f) The Registrar may give such directions as he may think fit with regard to the subsequent proceedings.

40. Where any order or direction has been made or given by the court:—

Order or direction by court

- (a) transferring a patent or application or any right in or under it to any person;
- (b) that an application should proceed in the name of any person;
- (c) allowing the owner of a patent to amend the application or patent; or
- (d) invalidating a patent;

the person in whose favour the order is made or the direction is given shall file Form No. 26, accompanied by an office copy of such order or direction, and thereupon the application or the patent shall be amended and the register shall, where applicable, be rectified or altered.

41. The Registrar shall maintain a special register in which he shall register licence contracts and the decisions referred to in Section 59 and 61.

Special register

CONTRACTUAL LICENCES

42. The file relating to a licence agreement may be inspected and extracts obtained therefrom only with the written permission of the licensor and licensee.

Inspection of files

43.—(1) The petition for registration of a licence contract under Section 47 shall be made on Form No. 27.

Submission of licence contract

(2) The petition shall be accompanied by copies of:—

- (i) all the documents constituting the contract, including all amendments, annexes, riders, and other supplements thereto or modifications thereof, and;
- (ii) all other documents or material relating to the contract necessary for the interpretation or understanding thereof.

(3) Upon the request of the Registrar, the petitioner shall submit such documents or material not accompanying the petition which are deemed necessary for the examination of the contract under Section 48.

(4) The fee for registration of the contract is set out in the First Schedule and it shall be paid at the same time as the petition for registration.

44.—(1) The receipt referred to in Section 47(5) shall be made on Form No. 28.

Receipt of petition; refusal to Register

(2) The refusal to register the licence contract shall be made in writing, stating the reasons therefor, and notified to the parties thereto.

Examination of Licence Contracts

45. Where the Registrar is of the opinion that the effect of the terms of the licence contract is prohibited by Section 48, he shall notify the petitioner accordingly and invite the parties, several times, if necessary, to modify the licence agreement.

Certificate of Registration

46. The certificate of registration of a licence contract shall be made on Form No. 29.

Recordal of decision on appeals

47. When the court decision on an appeal referred to in Section 51 becomes final, the court shall inform the Registrar who shall record the decision in the special register.

COMPULSORY LICENCES

Compulsory licence

48. The registration of the grant of a compulsory licence under Section 59 shall specify the terms thereof.

Publication

49. The Registrar shall publish any grant, cancellation or variation of compulsory licence of which he has been notified by the court in the Government Gazette.

LICENCES OF RIGHT

Entry concerning licences of right

50.—(1) The request under Section 60(1) shall be made of Form No. 30.

(2) (a) The time limit for the making of any objection under Section 60(3) shall not be less than one month nor more than three months from the date of the notification.

(b) The Registrar shall send a copy of any objection to the owner of the patent, who shall have three months from receiving a copy of such objection to file a counter-statement, setting out the grounds on which the objection is contested. The Registrar shall send a copy of the counter-statement to the person having made the objection.

(3) The entry in the register shall be made by entering in the register, in relation to the patent, the words "licences of right as from" followed by the date of the entry.

(4) The data furnished on Form No. 30 shall be included in the publication made pursuant to Section 60(4).

(5) (a) the request for cancellation of an entry under Section 60(7) shall be made in writing, together with the payment of the prescribed fee.

(b) When the balance of the annual fees has been paid, the entry shall be cancelled by the addition to the entry of the words "cancelled on," followed by the date of the cancellation.

EXPLOITATION OF PATENTED INVENTION BY OR THROUGH GOVERNMENT

51.—(1) The Minister shall render his decision in writing, stating the grounds therefor, and promptly transmit it to the Registrar.

Decision; remuneration; appeals

(2) The Registrar shall record in the special register the decision of the Minister, indicating the grounds therefor, and the decision fixing the amount of the remuneration, and shall notify the owner of the patent and the parties who were heard pursuant to Section 61(2).

(3) The Registrar shall record in the special register any decision of the court rendered on an appeal pursuant to Section 61(4).

(4) The Registrar shall publish a reference to the decisions given pursuant to Section 61(2) to (4) in the *Government Gazette*.

UTILITY CERTIFICATES

52.—(1) The rules set out in these Regulations shall apply, *mutatis mutandis*, to utility certificates, subject to the following exceptions:—

Application of provisions relating to patents

(a) the letter P, in regulation 23, shall be read as the letters UC;

(b) utility certificates shall be granted on Form No. 11A.

(c) A certificate of grant shall be issued on Form No. 12A.

(2) (a) A request, under Section 74, for the conversion of an application for a patent into an application for a utility certificate, or *vice versa*, shall be made on Form No. 31.

(b) The Registrar shall, within two months of the receipt of the request, notify the applicant of his decision thereon, in writing, and where he refuses the request, he shall state the reasons therefor.

(c) The Registrar shall record any conversion effected under Section 74(1) in the register and publish a reference thereto.

INTERNATIONAL APPLICATION FOR PATENT

53.—(1) The Patent Co-operation Treaty, the Regulations and Administrative Instructions thereunder shall apply in accordance with Section 31(3).

International application for patent; filing

(2) Where the Patents Office is the competent receiving Office under the Patent Co-operation Treaty, an international application shall be filed with it, in English, in triplicate. The transmittal fee specified in the First Schedule hereto shall be paid within one month from filing.

(3) If less than three copies of the international application are so filed, upon preparation by the Registrar of the number of copies required to bring the total to three, the applicant shall, on demand, pay to the Registrar the appropriate charge.

(4) In respect of the functions as a receiving Office under sub-regulation (2), the Patents Office may agree, pursuant to regulation 19(1)(b) of the Regulations under the said Treaty, that another office or inter-governmental organization acts as receiving Office instead of the Patents Office.

(5) Where the Patents Office is the competent designated or elected Office under the Patent Co-operation Treaty, a translation into English of any international application published in a language other than English shall be furnished within the time limit applicable under Article 22(1) or 39(1)(a) of the said Treaty.

TIME LIMITS

Excluded days

54. When the last day for doing any act or taking any proceeding falls on a day when the patents Office is not open to the public for business, it shall be lawful to do the act or to take the proceeding on the day when the patents office is next open for business.

Extension of time limit

55. The time or periods prescribed by these Regulations for doing any act or taking any proceeding thereunder may be extended by the Registrar if he thinks fit, upon such notice to the parties and upon such terms, as he may direct, and such extensions may be granted although the time or period for doing such act or taking such proceeding has already expired.

Service by post

56. Any notice, application or other document sent to the Registrar by posting it in the United Republic shall be deemed to have been given, made or filed at the time when the letter containing it would be delivered in the ordinary course of post.

MISCELLANEOUS

Duty to preserve secrecy

57. Employees of the Patents Office shall have the obligation, even after the termination of their employment, neither to communicate confidential information obtained in their capacities as employees of the Patents Office to persons not entitled to receive it, nor to disclose it to the public or make other use of it.

Directions as to furnishing of documents

58. At any stage of any proceedings before the Registrar, he may direct that such documents, information or evidence as he may require be furnished within such period of time as he may fix.

Corrections of irregularities

59. Any document filed in any proceedings before the Registrar may, if he thinks fit, be amended and any irregularity in procedure before the Registrar may be rectified, on such terms as he may direct.

Dispensation by the Registrar

60. Where, under these Regulations, any person is to do any act or thing, or any document or evidence is required to be produced or filed, and it is shown to the satisfaction of the Registrar that from any reasonable cause that person is unable to do that act or thing, or that document

or evidence cannot be produced or filed, the Registrar may, upon the production of such evidence and subject to such terms as he thinks fit, dispense with the doing of any such act or thing, or the production or filing of such document or evidence.

61. The Patents Office shall be open to the public from (Monday to Friday inclusive, each week, between the hours of 9.00 a.m. and 3.00 p.m.), for all classes of business. Hours of business
