### **Article 4-3: Accumulation**

1. For purposes of determining whether a good is an originating good, the production of the good in the territory of one or both of the Parties by one or more producers shall, at the choice of the exporter or producer of the good for which preferential tariff treatment is claimed, be considered to have been performed in the territory of either of the Parties by that exporter or producer, provided that:

- (a) all non-originating materials used in the production of the good satisfy the requirements set out in Annex 4-1 entirely in the territory of one or both of the Parties; and
- (b) the good satisfies all other applicable requirements of this Chapter.

2. Subject to paragraph 3, where each Party has a trade agreement that, as contemplated by the WTO Agreement, concerns the establishment of a free trade area with the same non-Party, the territory of that non-Party shall be deemed to form part of the territory of the free trade area established by this Agreement, for purposes of determining whether a good is an originating good under this Agreement.

3. A Party shall give effect to paragraph 2 only once provisions with effect equivalent to paragraph 2 are in force between each Party and the non-Party. Where such provisions in force between a Party and the non-Party apply to only certain goods or under certain conditions, the other Party may limit the application of paragraph 2 to those goods and under those conditions and as otherwise set out in this Agreement.

#### **Article 4-4: *De Minimis***

1. Except as provided in paragraphs 2 through 4, a good shall be considered to be originating if the value of all non-originating materials used in the production of the good that do not undergo an applicable change in tariff classification set out in Annex 4-1 does not exceed 10 per cent of the transaction value of the good, provided that:

- (a) if the rule of origin of Annex 4-1 applicable to the good contains a percentage for the maximum value of non-originating materials, the value of such non-originating materials shall be included in calculating the value of non-originating materials; and
- (b) the good satisfies all other applicable requirements of this Chapter.

2. Except as provided in Annex 4-1, paragraph 1 does not apply to a non-originating material used in the production of a good of Chapters 1 through 21 of the Harmonized System unless the non-originating material is provided for in a different subheading from the good for which origin is being determined under this Article.

3. A good of any of Chapters 50 through 60, headings 63.01 through 63.05, subheading 6307.10 or 6307.90, heading 63.08 or a new rag of heading 63.10 of the Harmonized System, that does not originate because certain non-originating yarns or fabrics used in the production of the good do not fulfil the requirements set out in Annex 4-1, shall nonetheless be considered to be originating if the total weight of all such yarns or fabrics does not exceed 10 per cent of the total weight of that good.

4. For purposes of a good of Chapters 61 through 62, heading 63.06 or subheading 6307.20 of the Harmonized System, the Chapter Note of Chapter 61, 62 or 63 of Annex 4-1, whichever is applicable, shall apply.

#### **Article 4-5: Fungible Materials and Goods**

For purposes of determining whether a good is an originating good:

- (a) where originating and non-originating fungible materials are used in the production of a good, the determination of whether the materials are originating materials may be made in accordance with any of the inventory management methods recognized in, or otherwise accepted by, the Generally Accepted Accounting Principles of the Party in which the production is performed; and
- (b) where originating and non-originating fungible goods are physically combined or mixed in inventory in a Party and exported in the same form to another Party, the determination of whether the good is an originating good may be made in accordance with any of the inventory management methods recognized in, or otherwise accepted by, the Generally Accepted Accounting Principles of the Party from which the good is exported.

#### **Article 4-6: Sets or Assortments of Goods**

Except as provided in Annex 4-1, a set, as referred to in General Rule 3 of the Harmonized System, or assortment of goods shall be considered to be originating, provided that:

- (a) all the component goods in the set or assortment, packaging materials and containers, are originating; or
- (b) where the set or assortment contains non-originating component goods, packaging materials and containers, the value of the non-originating goods, packaging materials and containers for the set or assortment, does not exceed 35 per cent of the transaction value of the set or assortment.

#### **Article 4-7: Accessories, Spare Parts and Tools**

Accessories, spare parts and tools delivered with a good that form part of the good's standard accessories, spare parts or tools, shall be considered to be originating if the good originates and shall be disregarded in determining whether all the non-originating materials used in the production of the good satisfy the requirements set out in Annex 4-1, provided that:

- (a) the accessories, spare parts and tools are not invoiced separately from the good; and
- (b) the quantities and value of such accessories, spare parts or tools are customary for the good.

#### **Article 4-8: Indirect Materials**

An indirect material shall be considered to be originating without regard to where it is produced.

#### **Article 4-9: Intermediate Materials Used in Production**

If an intermediate material is considered to be originating, then no account shall be taken of the non-originating materials contained therein when that intermediate material is subsequently used in the production of another good.

#### **Article 4-10: Packaging Materials and Containers for Retail Sale**

Except as provided for in Article 4-6 and in Annex 4-1, packaging materials and containers in which a good is packaged for retail sale shall be disregarded in determining:

- (a) whether all the non-originating materials undergo the applicable requirements set out in Annex 4-1; or
- (b) whether the good meets the requirements established in subparagraph (a) or (c) of Article 4-1.

#### **Article 4-11: Packing Materials and Containers for Shipment**

Packing materials, containers, pallets or similar articles in which a good is packed for shipment shall be disregarded in determining whether that good is originating.

#### **Article 4-12: Transshipment**

A good shall not be considered to be originating by reason of having undergone production that satisfies the requirements of Article 4-1 if, subsequent to that production, the good:

- (a) undergoes further production or any other operation outside the territories of the Parties, other than unloading, reloading or any other operation necessary to preserve it in good condition or to transport the good to the territory of a Party; or
- (b) does not remain under customs control while outside the territories of the Parties.

#### **Article 4-13: Interpretation and Application**

For purposes of this Chapter:

- (a) the basis for tariff classification in this Chapter is the Harmonized System;
- (b) where applying subparagraph (d) of Article 4-1, the determination of whether a heading or subheading under the Harmonized System provides for both a good and the materials that are used in the production of the good shall be made on the basis of the nomenclature of the heading or subheading and the relevant Section or Chapter Notes, in accordance with the General Rules for the Interpretation of the Harmonized System;

- (c) in applying the Customs Valuation Agreement under this Chapter,
  - (i) the principles of the Customs Valuation Agreement shall apply to domestic transactions, with such modifications as may be required by the circumstances, as would apply to international transactions,

  - (iii) the definitions in Article 4-15 shall take precedence over the definitions in the Customs Valuation Agreement to the extent of any difference; and
- (d) all costs referred to in this Chapter shall be recorded and maintained in accordance with the Generally Accepted Accounting Principles applicable in the territory of the Party in which the good is produced.

## ANNEX 4-1

### SPECIFIC RULES OF ORIGIN

#### Part A – General Interpretative Notes

1. For purposes of interpreting the rules of origin set out in this Annex:
  - (a) the specific rule, or specific set of rules, that applies to a particular heading, subheading or group of headings or subheadings is set out immediately adjacent to that heading, subheading or group of headings or subheadings;
  - (b) a requirement of a change in tariff classification or any other condition set out in a specific rule applies only to non-originating materials;
  - (c) the expression “a change from any other heading” or “a change from any other subheading” means a change from any other heading (or subheading) of the Harmonized System, including, where applicable, any other heading (or subheading) within the group of headings (or subheadings) to which the rule is applicable;
  - (d) the expression “a change from any heading outside that group” or “a change from any subheading outside that group” means a change from any other heading (or subheading) of the Harmonized System, except from any other heading (or subheading) within the group of headings (or subheadings) to which the rule is applicable;

- (e) the expression
- “a change from within that heading”,
  - “a change from within that subheading”,
  - “a change from within any one of these headings”,
  - “a change from within any one of these subheadings”,
  - “a change to (a good) of (a tariff provision) from within that (tariff provision)”

means a change from any other good or material of that same heading (or subheading) of the Harmonized System;

- (f) where two or more rules are applicable to a heading, subheading or group of headings or subheadings and the alternative rule contains a phrase commencing with the words “whether or not”,
- (i) the change in tariff classification specified in the phrase commencing with the words “whether or not” reflects the change specified in the first rule applicable to the heading, subheading or group of headings or subheadings,
  - (ii) the only change in tariff classification permitted by the alternative rule, in addition to the change in tariff classification specified at the beginning of that rule, is the change specified in the phrase commencing with the words “whether or not”,
  - (iii) unless otherwise specified, only the value of the non-originating materials referred to at the beginning of the alternative rule, and specified again in the phrase commencing with the words “provided that the value of the non-originating materials”, shall be included in calculating the value of non-originating materials, and
  - (iv) the value of any non-originating materials satisfying the change of tariff classification specified in the phrase commencing with the words “whether or not” shall not be included in calculating the value of non-originating materials;

- (g) reference to weight in the rules for goods provided for in Chapters 1 through 24 of the Harmonized System means dry weight unless otherwise specified in the Harmonized System;
- (h) the following definitions apply:
  - (i) **chapter** means a chapter of the Harmonized System,
  - (ii) **heading** means any four-digit number, or the first four digits of any number, used in the nomenclature of the Harmonized System,
  - (iii) **section** means a section of the Harmonized System, and
  - (iv) **subheading** means any six-digit number, or the first six digits of any number, used in the nomenclature of the Harmonized System.

2. A product specific rule of origin set out in this Annex represents the minimum amount of production required to be carried out on non-originating materials for the resulting good to achieve originating status. A greater amount of production than that required by the rule for that good will also confer originating status.

3. Where a rule of this Annex applicable to a good contains both a required change in tariff classification and a percentage for the maximum value of non-originating materials, the *de minimis* provision of Article 4-4 permits the use of non-originating materials which do not satisfy the tariff change requirement, as long as the value of such materials does not exceed 10 per cent of the transaction value of the good. However, the value of such non-originating materials shall be included when calculating the value of non-originating materials and under no circumstances may the percentage for the maximum value of non-originating materials as set out in the rule be exceeded through the use of the *de minimis* provision.

4. Where:

- (a) a rule of this Annex applicable to a good contains both a required change in tariff classification and a percentage for the maximum value of non-originating materials, and
- (b) one or more of the non-originating materials used in the production of the good are classified in the same subheading, or heading that is not further subdivided into subheadings, as the good itself,

subparagraph 1(d) of Article 4-1, which provides that the good shall be considered as originating if the value of the non-originating materials classified as or with the good does not exceed the given percentage of the transaction value of the good, may be applied.

5. Given that, in the case described in paragraph 4, the good resulting from the application of subparagraph 1(d) of Article 4-1 qualifies as originating in its own right, no account shall be taken of the non-originating materials contained therein when that good is used in the production of another good. In this particular instance, only the value of any other non-originating materials that are used in the production of the final good and that satisfy the required change in tariff classification set out in the rule of this Annex would need to be taken into account when calculating the value of non-originating materials for purposes of determining the origin of the final good.

6. The product specific rules of origin set out in this Annex also apply to used goods.

**Note 1:** *Notwithstanding any of the product specific rules of origin, any good of Chapter 27 that is a product of a chemical reaction shall be considered to be an originating good if the chemical reaction occurred in the territory of one or both of the Parties.*

*For purposes of this Chapter, a “chemical reaction” is a process, including a biochemical process, which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.*

*The following are not considered to be chemical reactions for the purposes of this definition:*

(a) *dissolving in water or other solvents;*

(b) *the eliminating of solvents including water; or*

(c) *the addition or elimination of water of crystallization.*

**Note 2:**

*For the purposes of heading 27.10, “direct blending” is defined as a refinery process whereby various petroleum streams from processing units and petroleum components from holding or storage tanks combine to create a finished good, with pre-determined parameters, classified under heading 27.10, provided that the non-originating material constitutes no more than 25 per cent by volume of the good.*

**Note 3:**

*For purposes of heading 27.10, the following processes confer origin:*

(a) *Atmospheric distillation - A separation process in which petroleum oils are converted, in a distillation tower, into fractions according to boiling point and the vapor then condensed into different liquefied fractions. Liquefied petroleum gas, naphtha, gasoline, kerosene, diesel or heating oil, light gas oils and lubricating oil are produced from petroleum distillation; and*

(b) *Vacuum distillation - Distillation at a pressure below atmospheric but not so low that it would be classed as molecular distillation. Vacuum distillation is useful for distilling high-boiling and heat-sensitive materials such as heavy distillates in petroleum oils to produce light to heavy vacuum gas oils and residuum. In some refineries gas oils may be further processed into lubricating oils.*

## **CHAPTER 5**

### **Customs Procedures**

#### **Section I – Certification of Origin**

##### **Article 5-1: Certificate of Origin**

1. The Parties shall establish, by the date of entry into force of this Agreement, a Certificate of Origin for the purpose of certifying that a good being exported from the territory of a Party into the territory of the other Party qualifies as an originating good. The Certificate of Origin may thereafter be modified as the Parties may agree.
2. Each Party shall provide that the Certificate of Origin may be presented in Arabic, English or French. Each Party may nevertheless require the importer to submit a translation of the Certificate of Origin into a language required by its domestic law.
3. Each Party shall:
  - (a) require an exporter in its territory to complete and sign a Certificate of Origin for any exportation of a good for which an importer may claim preferential tariff treatment upon importation of the good into the territory of the other Party; and
  - (b) provide that where an exporter in its territory is not the producer of the good, the exporter may complete and sign a Certificate of Origin on the basis of:
    - (i) its knowledge of whether the good qualifies as an originating good, based on information in the exporter's possession,
    - (ii) its reasonable reliance on the producer's written representation that the good qualifies as an originating good, or

- (iii) a completed and signed Certificate of Origin for the good voluntarily provided to the exporter by the producer.

4. Each Party shall apply a Certificate of Origin to a single importation of one or more goods into its territory.

5. The Parties shall endeavour to modify the Certificate of Origin so that it may be used for multiple importations of identical goods into a Party's territory when these importations are made by the same importer and occur within a specified period, not exceeding 12 months.

6. When a Certificate of Origin is established by the Parties under paragraph 1, each Party shall apply the Certificate of Origin to a single importation of goods as described in paragraph 4 and to multiple importations as described in paragraph 5.

#### **Article 5-2: Obligations Regarding Importations**

1. Except as otherwise provided in this Chapter, each Party shall require an importer in its territory that claims preferential tariff treatment for a good imported into its territory from the territory of the other Party to:

- (a) make a written declaration, based on a Certificate of Origin, that the good qualifies as an originating good;
- (b) have the Certificate of Origin in its possession at the time the declaration is made;
- (c) provide, on the request of that Party's customs administration, the Certificate of Origin; and
- (d) promptly make a corrected declaration in a manner required by its customs administration and pay any duties owing where the importer has reason to believe that a Certificate of Origin on which a declaration was based contains information that is not correct.

2. Each Party shall provide that, where an importer in its territory claims preferential tariff treatment for a good imported into its territory from the territory of the other Party:

- (a) the Party may deny preferential tariff treatment to the good if the importer fails to comply with any requirement under this Chapter; and
- (b) the importer shall not be subject to penalties for the making of an incorrect declaration, if it voluntarily makes a corrected declaration pursuant to subparagraph 1(d).

3. Each Party shall provide that, where a good would have qualified as an originating good when it was imported into the territory of that Party but no claim for preferential tariff treatment was made at that time, the importer of the good may, within 60 days or for such a longer period specified by the importing Party's law after the date on which the good was imported, apply for a refund, of any excess duties paid as a result of the good not having been accorded preferential tariff treatment, on presentation of:

- (a) a written declaration that the good qualified as an originating good at the time of importation;
- (b) a copy of the Certificate of Origin; and
- (c) such other documentation relating to the importation of the good as that Party may require.

4. Each Party, through its customs administration, may require an importer to demonstrate that the good was shipped in accordance with Article 4-12 of Chapter 4 (Rules of Origin) by providing:

- (a) carrier documents, including bills of lading or waybills, indicating the shipping route and all points of shipment and transshipment prior to the importation of the good and indicating that the importing Party is the final destination;

- (b) where the good is shipped through or transhipped outside the territories of the Parties, a copy of the customs control documents indicating to that customs administration that the good remained under customs control while outside the territories of the Parties.

### **Article 5-3: Exceptions**

1. A Party shall not require a Certificate of Origin for:
  - (a) a commercial importation of a good whose customs value does not exceed US\$1,000 or its equivalent amount in the Party's currency, or such higher amount as it may establish, except that it may require that the invoice accompanying the importation include a statement from the exporter certifying that the good qualifies as an originating good;
  - (b) a non-commercial importation of a good whose customs value does not exceed US\$1,000 or its equivalent amount in the Party's currency, or such higher amount as it may establish; or
  - (c) an importation of a good for which the Party into whose territory the good is imported has waived the requirement for a Certificate of Origin, provided that the importation does not form part of a series of importations that the importing Party reasonably considers to have been undertaken or arranged for the purpose of avoiding the certification requirements of Articles 5-1 and 5-2.

### **Article 5-4: Obligations Regarding Exportations**

1. Each Party shall provide that:
  - (a) an exporter in its territory, or a producer in its territory that has provided a Certificate of Origin to that exporter in accordance with item (iii) of subparagraph 3(b) of Article 5-1, shall provide the Certificate of Origin to its customs administration on its request;

- (b) where an exporter or a producer in its territory has provided a Certificate of Origin and has reason to believe that the Certificate of Origin contains or is based on incorrect information, the exporter or producer shall promptly notify in writing any change that could affect the accuracy or validity of the Certificate of Origin to every person to whom the exporter or producer has provided the Certificate of Origin; and
  - (c) a false certification by an exporter or a producer in its territory that a good to be exported to the territory of the other Party is originating shall be subject to penalties equivalent to those that would apply to an importer in its territory that makes a false statement or representation in connection with an importation, with appropriate modifications.
2. Each Party may apply measures, as the circumstances may warrant, where an exporter or a producer in its territory fails to comply with any requirement of this Chapter.
3. Neither Party may impose penalties on an exporter or a producer in its territory that voluntarily provides written notification pursuant to subparagraph 1(b) with respect to the making of an incorrect certification.

## **Section II – Administration and Enforcement**

### **Article 5-5: Records**

1. Each Party shall provide that an exporter or a producer in its territory that provides a Certificate of Origin in accordance with Article 5-1 shall maintain, for a minimum of five years after the date the certification was issued, or for such longer period as specified in the Party's laws and regulations, all records necessary to demonstrate that a good for which the producer or exporter provided the Certificate of Origin was an originating good, including records concerning:
- (a) the purchase of, cost of, value of, shipping of and payment for, the exported good;

- (b) the purchase of, cost of, value of, and payment for all materials, including indirect materials, used in the production of the exported good; and
- (c) the production of the good in the form in which it was exported.

2. Each Party shall require an importer claiming preferential tariff treatment for a good imported into its territory to maintain documentation relating to the importation of the good, including a copy of the Certificate of Origin, for five years after the date of importation of the good or for such longer period as specified in the Party's laws and regulations.

3. Where a Party requires importers, exporters and producers in its territory to maintain documentation or records in relation to a good imported pursuant to this Agreement, it shall permit them to do so in any medium, provided that the documentation or records can be retrieved and printed.

4. A Party may deny preferential tariff treatment to a good that is the subject of an origin verification where the exporter, producer or importer of the good that is required to maintain records or documentation under this Article:

- (a) fails to maintain records or documentation relevant to determining the origin of the good in accordance with the requirements of the Chapter; or
- (b) denies access to such records or documentation.

## **Article 5-6: Origin Verifications**

1. For purposes of determining whether a good imported into its territory from the territory of the other Party qualifies as an originating good, a Party may, through its competent authority, conduct a verification by means of:

- (a) verification letters that request information from the exporter or producer of the good in the territory of the other Party;
- (b) written questionnaires to the exporter or producer of the good in the territory of the other Party;
- (c) visits to the premises of an exporter or producer in the territory of the other Party to review the records referred to in paragraph 1 of Article 5-5 and observe the facilities used in the production of the good; or
- (d) any other method of communication customarily used by the competent authority of the Party conducting the verification.

2. Each Party shall provide that the competent authority of a Party may, for purposes of verifying the origin of a good, request that the importer of the good voluntarily obtain and supply written information voluntarily provided by the exporter or producer of the good in the territory of the other Party, provided that the failure or refusal of the importer to obtain and supply such information will not be considered as a failure of the exporter or producer to supply the information or as a ground for denying preferential tariff treatment.

3. Each Party shall allow an exporter or producer who receives a verification letter or a questionnaire pursuant to subparagraphs 1(a) and (b) no less than 30 days to provide the information and documentation required or the completed questionnaire. During that period, the importing Party shall allow the exporter or producer to submit to it a written request for a single extension of this deadline for a period not exceeding 30 days.

4. Where an exporter or producer fails to provide the information and documentation required by a verification letter or fails to return a duly completed questionnaire within the period or extension set out in paragraph 3, the importing Party may deny preferential tariff treatment to the good in question pursuant to the procedures set out in paragraphs 15 and 16.

5. Prior to conducting a verification visit pursuant to subparagraph 1(c), a Party shall, through its competent authority:

- (a) deliver a written notification of its intention to conduct the visit:
  - (i) to the exporter or producer whose premises are to be visited,
  - (ii) to the competent authority of the Party in whose territory the visit is to occur, and
  - (iii) if requested by the Party in whose territory the visit is to occur, to the embassy of that Party in the territory of the Party proposing to conduct the visit; and
- (b) obtain the written consent of the exporter or producer whose premises are to be visited.

6. The notification referred to in paragraph 5 shall include:

- (a) the name of the entity issuing the notification;
- (b) the name of the exporter or producer whose premises are to be visited;
- (c) the date and place of the proposed verification visit;
- (d) the scope of the proposed verification visit, including specific reference to the good that is the subject of the verification;

- (e) the names and titles of the officials performing the verification visit; and
- (f) the legal authority for the verification visit.

7. Where, within 30 days of the notification pursuant to paragraph 5, an exporter or producer has not given its written consent to a proposed verification visit, the notifying Party may deny preferential tariff treatment to the good that would have been the subject of the visit.

8. The Party whose competent authority receives notification pursuant to item (ii) of subparagraph 5(a) may, within 15 days of receipt of the notification, postpone the proposed verification visit for no more than 60 days from the date of such receipt or for such longer period as the Parties may agree.

9. Each Party shall provide that, where the exporter or producer receives notification pursuant to item (i) of subparagraph 5(a) the exporter or producer may, on a single occasion, within 15 days of receipt of the notification, request the postponement of the proposed verification visit for a period no more than 60 days from the date of such receipt or for such longer period as agreed to by the notifying Party.

10. A Party shall not deny preferential tariff treatment to a good based solely on the postponement of a verification visit pursuant to paragraphs 8 or 9.

11. A Party shall permit an exporter or a producer whose good is the subject of a verification visit by the other Party to designate two observers to be present during the visit, provided that:

- (a) the observers shall only participate as such; and
- (b) the failure of the exporter or producer to designate observers shall not result in the postponement of the visit.

12. Where a Party conducts a verification of origin involving a value test, *de minimis* calculation or any other provision in Chapter 4 (Rules of Origin) to which Generally Accepted Accounting Principles may be relevant, it shall apply such principles as are applicable in the territory of the other Party.

13. Where the producer of a good calculates the net cost of the good as set out in Article 4-2 of Chapter 4 (Rules of Origin), the importing Party shall not verify, during the fiscal period over which the net cost is being calculated, whether the good satisfies the value test.

14. The Party conducting a verification shall provide the exporter or producer whose good is the subject of the verification with a written determination of whether the good qualifies as an originating good, including findings of fact and the legal basis for the determination.

15. Where a Party determines as a result of an origin verification that the good that is the subject of the verification does not qualify as an originating good, the Party shall include in its written determination provided for under paragraph 14 a written notice of intent to deny preferential tariff treatment of the good.

16. A written notice of intent to deny preferential tariff treatment issued pursuant to paragraph 15 shall provide for no less than 30 days during which the exporter or producer of the good may provide, with regard to that determination, written comments or additional information that will be taken into account by the Party prior to completing the verification.

17. Where verifications by a Party indicate a pattern of conduct by an exporter or a producer of false or unsupported representations that a good imported into its territory qualifies as an originating good, the Party may withhold preferential tariff treatment to identical goods exported or produced by such person until that person establishes compliance with Chapter 4 (Rules of Origin), in accordance with the Party's domestic law.

18. Where, in conducting a verification of origin of a good imported into its territory under this Article, a Party conducts a verification of the origin of a material that is used in the production of the good, the Party shall conduct the verification of the origin of the material in accordance with the procedures set out in Paragraphs 1, 2, 3, 5, 6, 8, 9, 10, 11, 12, 13 and 20.

19. Where a Party conducts a verification pursuant to paragraph 18, the Party may consider the material to be non-originating in determining whether the good is an originating good where the producer or supplier of that material does not allow the Party access to information required to make a determination of whether the material is an originating material by the following or other means:

- (a) denial of access to its records;
- (b) failure to respond to a verification questionnaire or letter; or
- (c) refusal to consent to a verification visit within 30 days of receipt of the notification pursuant to paragraph 5.

20. For purposes of this Article, each Party shall ensure that all communication to the importer, exporter or producer and to the other Party be sent by any means that can produce a confirmation of receipt. The periods referred to in this Article will begin from the date of such receipt.

#### **Article 5-7: Confidentiality**

1. Each Party shall maintain, in accordance with its domestic law, the confidentiality of the information collected and shall protect that information from disclosure that could prejudice the competitive position of the persons providing the information. Where the Party receiving the information is required by its laws to disclose information, that Party shall notify the Party or person who provided that information.

2. Each Party shall ensure that the confidential information collected shall not be used for purposes other than the administration and enforcement of determinations of origin, and of customs matters except with the permission of the person or Party who provided the confidential information.

3. Notwithstanding paragraph 2, a Party may allow information collected pursuant to this Chapter or Chapter 4 (Rules of Origin) to be used in any administrative, judicial or quasi-judicial proceedings instituted for failure to comply with customs related laws and regulations implementing Chapter 4 (Rules of Origin) and this Chapter. A Party shall notify the person or Party who provided the information in advance of such use.

1. Each Party shall provide for the expeditious issuance of written advance rulings, prior to the importation of a good into its territory, to an importer in its territory or an exporter or a producer in the territory of the other Party, on the basis of the facts and circumstances presented by such importer, exporter or producer of the good, concerning whether a good qualifies as an originating good under Chapter 4 (Rules of Origin).

2. Each Party shall adopt or maintain procedures for the issuance of advance rulings, including a detailed description of the information reasonably required to process an application for a ruling.

3. Each Party shall provide that its competent authority:
  - (a) may, at any time during the course of an evaluation of an application for an advance ruling, request supplemental information from the person requesting the ruling;
  - (b) shall, after it has obtained all necessary information from the person requesting an advance ruling, issue the ruling within 120 days; and
  - (c) shall provide to the person requesting the ruling a full explanation of the reasons for the ruling.
  
4. Subject to paragraph 6, each Party:
  - (a) shall apply an advance ruling to importations into its territory of the good for which the ruling was requested, beginning on the date of its issuance or such later date as may be specified in the ruling;
  - (b) shall honour the advance ruling if there is no change in the material facts or circumstances on which it is based; and
  - (c) may establish, in the advance ruling, a period during which the advance ruling will be effective and honoured by that Party.
  
5. Each Party shall issue consistent advance rulings when the relevant facts and circumstances are identical.
  
6. The issuing Party may modify or revoke an advance ruling:
  - (a) if the ruling is based on an error of fact;
  - (b) if there is a change in the material facts or circumstances on which the ruling is based;

- (c) to conform with an amendment of Chapter 2 (National Treatment and Market Access of Goods), Chapter 4 (Rules of Origin), or this Chapter; or
- (d) to conform with a judicial decision or a change in its domestic law.

#### **Section IV – Review and Appeal of Advance Rulings and Origin Determinations**

##### **Article 5-10: Review and Appeal**

1. Each Party shall grant substantially the same rights of review and appeal of determinations of origin and advance rulings issued by its customs administration as it provides to importers in its territory, to any person:

- (a) who completes and signs a Certificate of Origin for a good that has been the subject of a determination of origin; or
- (b) who has received an advance ruling pursuant to paragraph 1 of Article 5-9.

2. Further to Articles 12-3 and 12-4 of Chapter 12 (Transparency), each Party shall provide that the rights of referred to in paragraph 1 shall include access to:

- (a) at least one level of administrative review independent of the official or office responsible for the determination under review; and

## CHAPTER 6

### Trade Facilitation

#### Article 6-1: Objectives and Principles

1. With the objectives of facilitating trade under this Agreement and cooperating to pursue trade facilitation initiatives on a multilateral basis, each Party shall administer its import and export processes for goods traded under this Agreement on the basis that, to the extent possible:

- (a) procedures be efficient to reduce costs for importers and exporters and simplified where appropriate to achieve such efficiencies;
- (b) procedures be based on any international trade instruments or standards to which the Parties have agreed;
- (c) entry procedures be transparent to ensure predictability for importers and exporters;
- (d) the personnel and procedures involved in those processes reflect standards of integrity;
- (e) the development of significant modifications to procedures of a Party include, in advance of implementation, consultations with the representatives of the trading community of that Party; and
- (f) procedures be based on risk management principles to focus compliance efforts on transactions that merit attention.

2. The Parties shall, to the extent possible, cooperate, assist each other technically and exchange information, including information on best practices, for the purpose of promoting the application of and compliance with the trade facilitation measures agreed upon under this Agreement.

## **Article 6-2: Rights and Obligations**

1. The Parties affirm their rights and obligations under Article VIII and Article X of the GATT 1994.
2. Each Party shall release unrestricted, uncontrolled and non-regulated goods promptly. Subject to paragraph 3, each Party shall provide the option of either:
  - (a) releasing such a good based on the submission, before or at the time of arrival of the good, of all the information necessary to obtain a final accounting of the good; or
  - (b) releasing such a good at the time of its presentation to the competent authority of the importing Party based on the submission of only the information required before the good arrives or at the time of arrival. This shall not prevent a competent authority from requiring the submission of more extensive information through post-entry accounting and verifications, as appropriate.
3. The Parties recognize that, for certain goods or under certain circumstances, such as goods subject to quota or to health-related or public safety requirements, releasing the goods may require the submission of more extensive information, before or at the time of arrival of the goods, to allow the authorities to examine the goods for release.
4. Each Party shall facilitate and simplify its processes and procedures for the release of low-risk goods, and shall improve controls on the release of high-risk goods. For these purposes, each Party shall base its examination and release procedures and its post-entry verification procedures on risk management principles, rather than examining each shipment offered for entry in a comprehensive manner for compliance with all import requirements. This shall not prevent a Party from conducting quality control and compliance reviews, which may require more extensive examinations.

5. Each Party shall ensure that the procedures and activities of its agencies that have requirements on the import or export of goods, and are maintained either by themselves or on their behalf by its competent authority, are coordinated to facilitate trade. To this end, each Party shall take steps to harmonize the data requirements of such agencies with the objective of allowing importers and exporters to present all required data to only one border agency.

6. In its procedures for the clearance of express consignments, each Party shall apply, to the extent possible, the World Customs Organization *Guidelines for the Immediate Release of Consignments by Customs*.

7. Each Party shall introduce or maintain simplified clearance procedures for the entry of goods that are low in value and for which the revenue associated with such imports is not considered significant by the Party maintaining such expedited procedures.

8. The Parties shall endeavour to achieve common processes and simplification of the information necessary for the release of goods, applying, when appropriate, existing international standards. With this objective, the Parties shall also endeavour to establish a means of providing for the electronic exchange of information between competent authorities and the importers, exporters, their agents or their representatives, for the purpose of encouraging rapid release procedures. For the purpose of this Article, each Party shall use formats based on international standards for the electronic exchange of information, and shall also take into account, to the extent possible, the World Customs Organization Recommendations “Concerning the Use of UN/EDIFACT Rules for Electronic Data Interchange” and “Concerning the Use of Codes for the Representation of Data Elements”. This shall not preclude the use of additional electronic data transmission standards.

9. Each Party shall, to the extent possible, establish means of consultation with its trade and business communities to promote greater cooperation and the exchange of electronic information.

10. Subject to Chapter 5 (Customs Procedures), a Party shall issue a written ruling prior to an importation in response to a written request by an importer in its territory, exporter or producer in the territory of the other Party, or their respective representatives. These rulings shall be issued for tariff classification or rate of customs duty, except any form of surtax or surcharge, applicable upon importation.

11. Each Party shall adopt or maintain procedures for the issuance of rulings referred to in paragraph 10. In accordance with these procedures, a Party may, at any time, modify or revoke a ruling:

- (a) after notification to the person that requested the ruling and without retroactive application; or
- (b) without notification and with retroactive application in circumstances where inaccurate or false information was provided.

12. The rulings referred to in paragraph 10 shall be as detailed as the nature of the request and the details provided by the person requesting the ruling permit. When a Party determines that a request for a ruling is incomplete, it may request additional information, including, where appropriate, a sample of the goods or materials in question from the person requesting the ruling. A Party shall issue a ruling within 120 days after it has received all the information it considers necessary to issue the ruling. A ruling shall be binding upon the Party that issued the ruling at the time the goods are actually imported provided that the facts and circumstances that were the basis for the issuance of the ruling remain in effect.

13. Each Party shall ensure that any administrative action or official decision taken in respect of the import or export of goods is reviewable promptly by judicial, arbitral or administrative tribunals or through administrative procedures. Such tribunal or official acting pursuant to such administrative procedures shall be independent of the official or office issuing the decision and shall have the competence to maintain, modify or reverse the determination, in accordance with the Party's domestic law. Each Party shall provide for an administrative level of appeal or review, independent of the official or, where applicable, the office responsible for the original action or decision, before requiring a person to seek redress at a more formal or judicial level.

14. Each Party shall publish or otherwise make available, including through electronic means, all their legislation, regulations, judicial decisions and administrative rulings or policies of general application relating to its requirements for imported or exported goods. Each Party shall also make available notices of an administrative nature, such as general agency requirements and entry procedures, hours of operation and points of contacts for information enquiries.

15. Each Party shall, in accordance with its domestic law, treat as strictly confidential all business information obtained pursuant to this Chapter that is by its nature confidential or that is provided on a confidential basis.

### **Article 6-3: Cooperation**

1. The Parties recognize that technical cooperation is fundamental to facilitating compliance with the obligations set forth in this Agreement and for reaching a better degree of trade facilitation.

2. The Parties agree to develop a technical cooperation programme under such mutually agreed terms as the scope, timing and cost of cooperative measures in customs-related areas such as:

3. The Parties shall cooperate in the development of effective mechanisms for communicating with the trade and business communities.

#### **Article 6-4: Future Work Programme**

1. With the objective of developing further steps to facilitate trade under this Agreement, the Parties establish the following work programme:
  - (a) to develop the Cooperation Programme referred to in Article 6-3 for the purpose of facilitating compliance with the obligations set forth in this Agreement; and
  - (b) as appropriate, to identify and submit for the consideration of the Free Trade Commission new measures aimed at facilitating trade between the Parties, taking as a basis the objectives and principles set forth in Article 6-1, including:
    - (i) common processes,
    - (ii) general measures to facilitate trade,
    - (iii) official controls,
    - (iv) transportation,
    - (v) the promotion and use of standards,
    - (vi) the use of automated systems and Electronic Data Interchange,
    - (vii) the availability of information,
    - (viii) customs and other official procedures concerning the means of transportation and transportation equipment, including containers,
    - (ix) official requirements for imported goods,
    - (x) simplification of the information necessary for the release of goods,
    - (xi) customs clearance of exports,

- (xii) transshipment of goods,
- (xiii) goods in international transit,
- (xiv) commercial trade practices, and
- (xv) payment procedures.

2. The Parties may periodically review the work programme referred to in this Article for the purpose of agreeing upon new cooperation actions that might be needed to promote application of the trade facilitation obligations and principles, including new measures that might be agreed upon by the Parties.

3. The Parties shall review relevant international initiatives on trade facilitation, including the Compendium of Trade Facilitation Recommendations, developed by the United Nations Conference on Trade and Development and the United Nations Economic Commission for Europe, to identify areas where further joint action would facilitate trade between the Parties and promote shared multilateral objectives.

Each Party retains its rights and obligations under Article XIX of the GATT 1994 and the *Agreement on Safeguards* of the WTO Agreement.

#### **Article 8-2: Bilateral Emergency Actions**

1. Subject to paragraphs 2 through 4, and during the transition period only, if an originating good, as a result of the reduction or elimination of a duty provided for in this Agreement, is being imported into the territory of the other Party in such increased quantities, in absolute terms, and under such conditions that the imports of the good from that Party alone constitute a principal cause of serious injury, or threat thereof, to a domestic industry producing a like or directly competitive good, the Party into whose territory the good is being imported may to the minimum extent necessary to remedy or prevent the injury:

- (a) suspend the further reduction of any rate of duty provided for under this Agreement on the good; and/or

- (b) any such action shall be initiated no later than one year after the date of institution of the proceeding;
- (c) no action may be maintained:

- (f) In order to facilitate the adjustment in a situation where the expected duration of an emergency action is over one year, the Party taking the action shall progressively liberalize it at regular intervals during the period of application.

3. The Party taking an action under this Article shall provide to the other Party mutually agreed trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the action.

4. If the Parties are unable to agree on the compensation referred to in paragraph 3, the Party against whose good the action is taken may take tariff action having trade effects substantially equivalent to the trade effects of the emergency action over the full period of its application. The Party taking the tariff action shall apply the action only for the minimum period necessary to achieve the substantially equivalent effects.

5. The right to take the tariff action referred to in paragraph 4 shall not be exercised for the first 12 months that an emergency action is in effect, provided that the Parties consult actively with a view to finding mutually agreed compensation. Until such time as compensation is mutually agreed, or until the 12 month period has expired, the Joint Commission shall meet every three months at the request of the Party against whose goods the action is taken to discuss the continued application of the action and with a view to finding mutually agreed compensation.

2. Each Party shall entrust determinations of serious injury, or threat thereof, in an emergency action proceeding to a competent investigating authority. Negative injury determinations shall not be subject to modification. The competent investigating authority empowered under domestic law to conduct such proceedings shall be provided with the necessary resources to enable it to fulfil its duties.

3. Each Party shall adopt or maintain equitable, timely, transparent and effective procedures for emergency action proceedings, in accordance with the requirements set out in paragraph 4.

#### Article 14-2: Scope of Application

1. Except as provided in paragraphs 3 and 4, the dispute settlement provisions of this Chapter shall apply with respect to the avoidance or settlement of all disputes between the Parties regarding the interpretation or application of this Agreement or wherever a Party considers that:

- (a) an actual or proposed measure of the other Party is or would be inconsistent with the obligations of this Agreement;
- (b) the other Party has otherwise failed to carry out its obligations under this Agreement; or
- (c) any benefit that the Party could reasonably have expected to accrue to it under any provision of Chapters 2 (National Treatment and Market Access for Goods), 3 (Electronic Commerce), 4 (Rules of Origin), 5 (Customs Procedures) or 6 (Trade Facilitation) is being nullified or impaired as a result of the application of any measure of the other Party that is not inconsistent with this Agreement.

2. In any dispute in respect of subparagraph 1(c), a panel established under this Chapter shall take into consideration the jurisprudence interpreting Article XXIII:1(b) of the GATT 1994. A Party may not invoke subparagraph 1(c) with respect to any measure subject to an exception under Article 15-1 nor with respect to any measure subject to the exception under Article 15-5.

3. This Chapter does not apply to any matters arising in relation to any one of the following: Articles 1-3 and 1-4; and Chapters 7 (Sanitary and Phytosanitary Measures), 10 (Environment) and 11 (Labour).

4. Neither Party may request the establishment of an arbitral panel under this Chapter regarding any proposed emergency action pursuant to Chapter 8 (Emergency Action).

#### **Article 14-3: Choice of Forum**

1. Subject to paragraph 2, disputes regarding any matter arising under both this Agreement and the WTO Agreement or any other free trade agreement to which both Parties are party, may be settled in either forum at the discretion of the complaining Party.

2. In any dispute referred to in paragraph 1 where the Party complained against claims that its measures are subject to Article 1-5 and requests in writing that the matter be considered under this Agreement, the complaining Party may, in respect of that matter, thereafter have recourse to dispute settlement procedures solely under this Agreement.

3. Where the complaining Party requests the establishment of a dispute settlement panel under an agreement referred to in paragraph 1, the forum selected shall be used to the exclusion of the others, unless the Party complained against makes a request pursuant to paragraph 2.

#### **Article 14-4: Consultations**

1. A Party may request in writing consultations with the other Party regarding any matter referred to in Article 14-2.

2. The requesting Party shall deliver the request to the other Party, and shall set out the reasons for the request, including the identification of the measure or other matter at issue under Article 14-2 and an indication of the legal basis for the complaint.

3. Subject to paragraph 4, the Parties shall, unless otherwise agreed, enter into consultations within 30 days of the date of receipt of the request by the other Party.
4. In cases of urgency, including those involving goods that rapidly lose their trade value, such as perishable goods, consultations shall commence within 15 days of the date of receipt of the request by the other Party.
5. The requesting Party may request the other Party to make available personnel of its government agencies or other regulatory bodies who have expertise in the matter subject to consultations.
6. The Parties shall make every attempt to arrive at a mutually satisfactory resolution of any matter through consultations under this Article. To this end, each Party shall:
  - (a) provide sufficient information that is reasonably available to it to the other party to enable a full examination of the measure or other matter at issue; and
  - (b) treat any confidential or proprietary information received in the course of consultations on the same basis as the Party providing the information.
7. Consultations are confidential and without prejudice to the rights of the Parties in proceedings under this Chapter.
8. Consultations may be held in person or by any other means agreed to by the Parties.

#### **Article 14-5: Good Offices, Conciliation and Mediation**

1. The Parties may agree to undertake an alternative method of dispute resolution, such as good offices, conciliation or mediation.
2. Such alternative methods of dispute resolution shall be conducted according to procedures agreed to by the Parties.

3. Procedures established under this Article may begin at any time and be suspended or terminated at any time by either Party. Once procedures for good offices, conciliation or mediation are terminated, the requesting party may then proceed with a request for the establishment of a panel or in case of a suspension of proceedings before a panel, resume such proceedings.

4. Proceedings involving good offices, conciliation and mediation are confidential and without prejudice to the rights of the Parties in any other proceedings.

#### **Article 14-6: Referral to a Panel**

1. Unless the Parties agree otherwise, if a matter referred to in Article 14-4 has not been resolved within:

(a) forty-five (45) days of the date of receipt of the request for consultations;  
or

(b) twenty-five (25) days of the date of receipt of the request for consultations for matters referred to in paragraph 4 of Article 14-4;

the complaining Party may refer the matter to a dispute settlement panel by providing written notice to the other Party.

2. In the notice referred to in paragraph 1, the complaining Party shall identify the specific measures or other matter at issue and provide a brief summary of the legal basis of the complaint sufficient to present the problem clearly.

3. A dispute settlement panel may not be established to review a proposed measure.

## **Article 14-8: Panel Composition**

1. The panel shall comprise three members.
2. Each Party shall, within 30 days of the Receipt Date, appoint one panel member, propose up to four candidates to serve as chair of the panel and notify the other Party in writing of the appointment and its proposed candidates to serve as the chair. If a Party fails to appoint a panel member in accordance with this paragraph, the panel member shall be selected by lot from the candidates proposed for the chair.
3. The Parties shall endeavour to appoint by consensus the chair from among the candidates proposed, within 60 days of the Receipt Date. If the Parties fail to agree on the chair within this time period, the chair shall be selected by lot from the candidates proposed within a further seven days.
4. If a panel member appointed by a Party withdraws, is removed, or is unable to serve, a replacement shall be appointed by that Party within 30 days, failing which the replacement shall be appointed in accordance with paragraph 3. If the chair of the panel withdraws, is removed or becomes unable to serve, the Parties shall endeavour to appoint a replacement by consensus, failing which the replacement shall be appointed by a selection by lot within 30 days from among the remaining candidates previously proposed for the chair. If there are no remaining candidates, the Parties shall each propose up to three additional candidates and the chair shall be selected by lot from among them. In any such case, any time period applicable to the proceeding shall be suspended for a period beginning on the date the panel member or chair withdraws, is removed, or is unable to serve, and ending on the date the replacement is selected.
5. In this Article, the “Receipt Date” refers to the date on which the notice referring an issue to a dispute settlement panel pursuant to paragraph 1 of Article 14-6 is received by the other Party.

## **Article 14-9: Rules of Procedure**

1. Any panel established under this Chapter shall follow the provisions of this Chapter, including Annex 14-9 (Detailed Rules pertaining to Dispute Settlement Proceedings) (“Detailed Rules”), as well any additional procedural rules adopted by the Joint Commission pursuant to subparagraph 2(e) of Article 13-1. A panel may establish, in consultation with the Parties, supplementary rules of procedure that do not conflict with the provisions of this Chapter or with any additional procedural rules adopted by the Joint Commission.
  
2. Unless the Parties determine otherwise, the rules of procedure of a panel shall ensure:
  - (a) an opportunity for each Party to provide initial and rebuttal written submissions;
  - (b) subject to subparagraph (f), that each Party's written submissions, written versions of its oral statements, and written responses to requests or questions from the panel may be made public;
  - (c) the right to at least one hearing before the panel and that, subject to subparagraph (f), such hearings shall be open to the public;
  - (d) that the panel allow a non-governmental person of a Party the opportunity to provide written views regarding the dispute that may assist the panel in evaluating the submissions and arguments of the Parties;
  - (e) that all submissions and comments made to the panel be available to the other Party; and
  - (f) the protection of confidential information, in accordance with Articles 15-2 and 15-5.

3. Unless the Parties determine otherwise, the terms of reference of the Panel shall be:

“To examine, in the light of the relevant provisions of the Agreement, the matter referred to in the notification of referral to a panel and to make findings, determinations and recommendations as provided in Article 14-10.”

4. If a complaining Party claims that there is nullification or impairment of benefits in the sense of subparagraph 1(c) of Article 14-2, the terms of reference shall so indicate.

5. If a Party requests the panel to make findings regarding the degree of adverse effects of any measure found not to conform to the obligations of the Agreement or regarding the degree of nullification or impairment in the sense of subparagraph 1(c) of Article 14-2, the terms of reference shall so indicate.

6. On request of a Party, or on the panel's own initiative, the panel may seek information and technical advice from any person or body that it deems appropriate, in accordance with paragraph 14 of the Detailed Rules and subject to any terms and conditions agreed by the Parties. Any information obtained in this manner must be disclosed to each Party and submitted for their comments.

7. The panel may rule on its own jurisdiction.

8. Findings, determinations and recommendations of the panel under Article 14-10 shall be made by a majority of its members. Panel members may furnish separate opinions on matters not unanimously agreed. A panel shall not disclose which panellists are associated with majority or minority opinions. The panel may delegate to the chair authority to make administrative and procedural decisions.

9. The Parties shall bear the expenses of a panel, including the remuneration of its members, in accordance with additional procedural rules that will be adopted by the Joint Commission.

## **Article 14-10: Panel Reports**

1. Unless the Parties determine otherwise, the panel shall issue reports in accordance with the provisions of this Chapter.
2. The panel shall base its reports on: the provisions of this Agreement, applied and interpreted in accordance with the rules of interpretation of public international law; the submissions and arguments of the Parties; and any information and technical advice put before it pursuant to the provisions of this Chapter.
3. The panel shall, within 90 days after the appointment or selection of the panel members is completed, present to the Parties an initial report containing its findings of fact and its determinations as to:
  - (a) whether the measure at issue is inconsistent with a Party's obligations under this Agreement; or
  - (b) any other issue included in the terms of reference.
4. On request by a Party, the panel shall include in its initial report recommendations for resolution of the dispute.
5. A Party may submit written comments to the panel on its initial report. After considering any such comments, the panel, on its own initiative or on the request of either Party, may:
  - (a) request the views of either Party;
  - (b) reconsider its report; and
  - (c) make any further examination that it considers appropriate.
6. The panel shall present to the Parties a final report within 60 days of presentation of the initial report.

7. Notwithstanding any other provision of this Article, the initial report of the panel shall be confidential. The final report of the panel may be published by either Party or the panel 15 days after it is presented to the Parties, or such longer period as the Parties may agree, subject to the protection of confidential information.

#### **Article 14-11: Clarification of panel report**

1. Within 10 days after the presentation of the final report, a Party may submit a written request to the panel for clarification of any determinations or recommendations in the report that the Party considers ambiguous. The panel shall respond to the request within 10 days after the presentation of such request.
2. The submission of a request pursuant to paragraph 1 shall affect the time periods referred to in paragraphs 3 and 4 of Article 14-12 and paragraph 1 of Article 14-13, unless the panel decides otherwise.

#### **Article 14-12: Implementation of the Final Report**

1. On receipt of the final report of the panel, the Parties shall mutually agree on the resolution of the dispute, which shall be in conformity with the determinations and recommendations, if any, of the panel, unless the Parties otherwise reach a mutually satisfactory solution.
2. Wherever possible, the resolution shall be removal of any measure found to be inconsistent with the obligations of this Agreement or removal of the nullification or impairment in the sense of subparagraph 1(c) of Article 14-2.
3. If the Parties are unable to reach a mutually satisfactory solution within 60 days of presentation of the final report, or such other period as the Parties may agree, the Party complained against shall, with the consent of the complaining Party, propose an action plan to bring the Party complained against into compliance with the obligations in this Agreement. If the complaining Party accepts the proposed action plan, the Party complained against shall comply with the plan.

4. If the Parties are unable to agree to a mutually satisfactory solution or an action plan within 90 days of presentation of the final report, or such other period as the Parties may determine, the Party complained against shall, if so requested by the complaining Party, enter into negotiations regarding compensation.

#### **Article 14-13: Non-Implementation - Suspension of Benefits**

1. The complaining Party may suspend the application of the benefits of the Party complained against of equivalent effect, following notice to that Party specifying the level of benefits that the complaining Party proposes to suspend and until such time as they have reached a mutually satisfactory solution of the dispute, if:

- (a) no satisfactory compensation has been agreed pursuant to paragraph 4 of Article 14-12 within 30 days from the date of the complaining Party's request;
- (b) ninety days have passed since the presentation of the final report, where compensation is not requested pursuant to paragraph 4 of Article 14-12; or
- (c) the Parties have agreed to a mutually satisfactory solution of the dispute, an action plan, or compensation, and the complaining Party considers that the Party complained against has failed to observe the terms of such an agreement.

2. The suspension of benefits shall be temporary and be applied by the complaining Party only until the measure found to be inconsistent with the obligations of this Agreement or otherwise nullifying or impairing benefits in the sense of subparagraph 1(c) of Article 14-2 has been withdrawn or amended so as to bring it into conformity with this Agreement, including as a result of the panel process described in Article 14-14, or until such time as the Parties have otherwise reached agreement on a resolution of the dispute.

#### **Article 14-14: Compliance and Suspension of Benefits**

1. A Party may, by a written notice to the other Party, request that the panel established under Article 14-6 be reconvened to make a determination with respect to:
  - (a) whether the level of benefits suspended by a Party pursuant to paragraph 1 of Article 14-12 is manifestly excessive; or
  - (b) any disagreement as to the existence or consistency with this Agreement of measures taken to comply with the determinations or recommendations of the panel made pursuant to Article 14-10.
2. In interpreting the terms “the existence or consistency with” and “measures taken to comply”, the panel acting pursuant to paragraph 1 shall take into account the relevant jurisprudence under the Dispute Settlement Understanding of the WTO Agreement.
3. A complaining Party may continue to suspend benefits during proceedings under paragraph 1.
4. In the written notice referred to in paragraph 1, a Party shall identify the matter at issue and provide a brief summary of the legal basis of the complaint sufficient to present the problem clearly.
5. The panel shall be reconvened either:
  - (a) upon receipt by the other Party of a written notice referred to in paragraph 1; or
  - (b) in the event that any original panel member is unable to serve on the panel, on the date on which a replacement panel member is appointed in accordance with the provisions of Article 14-8.
6. The provisions of Articles 14-9 and 14-10 apply to procedures adopted and reports issued by the panel reconvened under this Article, with the exception that the panel shall:
  - (a) present a final report within 45 days of being reconvened where the request concerns subparagraph 1(a) only, and otherwise within 90 days; and

(b) present an interim report 15 days prior to presenting a final report.

7. A panel reconvened under this Article may include in its final report a recommendation, where appropriate, that any suspension of benefits be terminated or that the amount of benefits suspended be modified.

#### **Article 14-15: Referrals of Matters from Judicial or Administrative Proceedings**

1. If an issue of interpretation or application of this Agreement arises in any domestic judicial or administrative proceeding of a Party that either Party considers would merit its intervention, or if a court or administrative body solicits the views of a Party, that Party shall notify the other Party. The Joint Commission shall endeavour to determine an appropriate response as expeditiously as possible.

2. The Party in whose territory the court or administrative body is located shall submit any agreed interpretation of the Joint Commission to the court or administrative body in accordance with the rules of that forum.

3. If the Joint Commission is unable to act, each Party may submit its own views to the court or administrative body in accordance with the rules of that forum.

#### **Article 14-16: Private Rights**

No Party may provide for a right of action under its domestic law against another Party on the ground that a measure of the other Party is inconsistent with this Agreement.

## ANNEX 14-9

3. Any reference made in these rules to an Article is a reference to the appropriate Article in Chapter 14 (Dispute Settlement).

*Written Submissions and Other Documents*

4. Each Party shall deliver the original and no less than four (4) copies of any written submission to the panel and one (1) copy to the Embassy of the other Party. Delivery of submissions and any other document related to the panel proceedings may be made by facsimile or other means of electronic transmission if the Parties so agree. Where a Party delivers physical copies of written submissions or any other document related to the panel proceedings, that Party shall deliver at the same time an electronic version of such submissions or other document.

5. The complaining Party shall deliver an initial written submission no later than ten-(10) days after the date on which the last panel member is appointed. The Party complained against shall, in turn, deliver a written counter-submission no later than twenty (20) days after the date on which the initial written submission of the complaining Party is due.

6. The panel shall establish, in consultation with the Parties, dates for the delivery of the subsequent written rebuttal submissions of the Parties and any other written submissions that the panel and the Parties agree are appropriate.

7. A Party may at any time correct minor errors of a clerical nature in any written submission or other document related to the panel proceeding by delivering a new document clearly indicating the changes.

8. If the last day for delivery of a document falls on a legal holiday observed by a Party or on any other day on which the government offices of that Party are closed by order of the government or by *force majeure*, the document may be delivered on the next business day.

*Burden of Proof*

9. A Party asserting that a measure of the other Party is inconsistent with the provisions of this Agreement shall have the burden of establishing such inconsistency.

10. A Party asserting that a measure is subject to an exception under this Agreement shall have the burden of establishing that the exception applies.

*Written Submission by a Non-Governmental Person*

11. A panel may, on application, grant leave to a non-governmental person to file a written submission. In making its decision to grant leave, the panel shall consider, *inter alia*:

- (a) whether there is a public interest in the proceeding;
- (b) whether the non-governmental person has a substantial interest in the proceeding;
- (c) whether a written submission from that non-governmental person would assist the panel in the determination of a factual or legal issue related to the proceeding by bringing a perspective, particular knowledge or insight that is different from that of the Parties; and
- (d) any submissions by the Parties on the application for leave.

12. An interest in the development of trade law jurisprudence, the interpretation of the Agreement, or in the subject matter of the dispute does not alone suffice in establishing the presence of a substantial interest in the proceeding by a Non-Governmental Person.

13. Where the panel has granted leave to a non-governmental person to file a written submission, it shall ensure that:

- (a) the written submission does not introduce new issues to the dispute and is within the terms of reference of the dispute as defined by the Parties;
- (b) the non-governmental person follows any rules adopted by the Commission for the filing of such written submissions;
- (c) the written submission avoids disrupting the proceeding and preserves the equality of the Parties; and
- (d) the Parties have the opportunity to respond to the written submission in the proceedings.

#### *Role of Experts*

14. On request of a disputing party, or on its own initiative, the panel may seek information and technical advice from any person or body that it deems appropriate subject to paragraphs 15 and 16 and such additional terms and conditions as the disputing Parties may agree upon. The requirements set out in paragraph 6 of Article 14-9 shall apply to the experts or bodies, as appropriate.

15. Before the panel seeks information or technical advice, it shall:

- (a) notify the disputing Parties of its intention to seek information or technical advice under paragraph 14 and provide them with an adequate period of time to submit comments; and
- (b) provide the Parties with a copy of any information or technical advice received under paragraph 14 and provide them with an adequate period of time to submit comments.

16. When the panel takes into consideration the information or technical advice received under paragraph 14 for the preparation of its report, it shall also take into consideration any comments or observations submitted by the Parties with respect to such information or technical advice.

#### *Operation of Panels*

17. The chair of the panel shall preside at all of its meetings.

18. The panel may conduct its business by any appropriate means, including by telephone, facsimile transmission and video or computer links.

19. Only panel members may take part in the deliberations of the panel. The panel may, in consultation with the Parties, employ such number of assistants, interpreters or translators, or court reporters as may be required for the proceeding and permit them to be present during such deliberations. The panel member and the persons employed by the panel shall maintain the confidentiality of the panel's deliberations and any information that is protected pursuant to subparagraph 2(f) of Article 14-9.

20. The panel may, in consultation with the Parties, modify any time-period applicable in the panel proceedings and make other procedural or administrative adjustments as may be required in the proceeding.

#### *Hearings*

21. The chair of the panel shall fix the date and time of any hearing in consultation with the Parties and the other panel members, and then notify the Parties in writing of such date and time.

22. The location of hearings shall alternate between the territories of the Parties with the first hearing to take place in the territory of the Party complained against.

23. No later than five (5) days before the date of a hearing, each Party shall deliver to the other Party and the panel a list of the names of representatives or advisers who will be attending the hearing.

24. A hearing shall be conducted by the panel in a manner that ensures that the complaining Party and the Party complained against are afforded equal time for arguments, replies and counter-replies.

25. Further to subparagraph 2(c) of Article 14-9, the panel shall, in consultation with the Parties, adopt appropriate logistical arrangements and procedures to ensure that hearings are not disrupted by the attendance of the public. Such procedures may include, *inter alia*, the use of live web-broadcasting or of closed-circuit television.

26. The panel shall arrange the preparation of transcripts of the hearing, if any, and shall, as soon as possible after any such transcripts are prepared, deliver a copy to each Party.

#### *Ex Parte Contacts*

27. No Party shall communicate with the panel without notifying the other Party. The panel shall not communicate with a Party in the absence of, or without notifying, the other Party.

28. No panel member may discuss any aspect of the substantive subject matter of the proceeding with the Parties in the absence of the other panel members.

#### *Remuneration and Payment of Expenses*

29. The panel shall keep a record and render to the Parties a final account of all general expenses incurred in connection with the proceedings, including those paid to the assistants, court reporters or other individuals that it retains in a panel proceeding, in consultation with the Parties.
